Dear Friends and Customers:

It gives me unusual pleasure to send you this 1932 edition of, "A Guide to the Best Plants, Shrubs and Trees That Grow" which I feel sure will help you make your home surroundings more attractive and liveable and your gardens and orchards more profitable.

Every year adds to our fund of knowledge about growing things. We are happy to pass on to you information about new varieties and the most improved methods of planting and care. You will find several new features in this book which I hope you will enjoy.

I wish you could see the big, strong, well-rooted plants, shrubs, roses and trees which we have ready to send out to you this year. Never in the 56 years I have been in this business, have I seen better stock which will more surely give satisfaction.

Send in your orders early and save the discount shown on the opposite page. If you need any special assistance in your planting or landscaping, just write to me

Cordially yours,

Allen L. Wood

OVER HALF A CENTURY
DEVOTED TO PRODUCING
THE BEST THAT GROWS
AT REASONABLE PRICES

PARTIAL VIEW OF OUR PACKING CELLAR, COVERING OVER AN ACRE OF GROUND

UNEXCELLED FACILITIES

OUR farms where we grow our nursery stock are located in the beautiful and fertile Genesee Valley, where conditions are ideal for producing the best. Our packing cellar, where your orders are filled, covers over an acre of ground, and is especially constructed to protect stock from sun and wind until it is shipped to you.

PACKING

No expense is spared in packing each order, large or small, so that it will reach you in fresh growing condition. Large shipments of trees and shrubs are packed in strong, paper-lined wooden boxes. Smaller shipments are baled with damp moss about the roots and the tops protected with flag. We have frequent compliments upon the unusually thorough way we pack our nursery stock.

IT IS EASY TO ORDER

Just fill in the enclosed order blank in the back of this book, being particular to specify just what is wanted. Your name, post office and shipping point should be plainly written to avoid mistakes. If in doubt as to whether stock should go forward by express, parcel post or freight, leave it to us and we will use our best judgment. Prices are F.O.B. Rochester and do not include transportation charges except where noted.

Terms—Cash with order. By selling for cash, we are able to make the extremely low prices shown in this book.

How to Remit—Preferably by check, post office money order, express money order, draft or registered letter.

Parcel Post is often cheaper and more convenient than express for small packages. Where extra charges for postage are indicated in this book, we prepay to any point east of Illinois and north of Virginia. When postage is not included with your order and for points beyond the above limit, we collect the amount of postage at time of shipment.

Shipping Seasons—In the spring for this locality, usually from about March 1st to May 20th or a little later. To southern points we commence shipping in January. In the fall from about October 10th until the ground freezes.

REDUCED PRICES

Prices in this book are lower than they have been for years, especially for quantity orders. It costs us just as much to pack and ship one shrub or tree as it does five so when you order more than one, you save money and are able to get an adequate number of plants for much less.

No Order Accepted for less than \$1.00

SAVE MONEY BY ORDERING EARLY

10% discount on orders with remittance before March 1, 1932; 5% discount between March 1 and April 1, 1932.

CERTIFICATE OF INSPECTION OF NURSERY STOCK

This is to Certify that the nursery stock of Woodlawn Nurseries, Allen L. Wood, of Rochester, County of Monroe, State of New York, has been duly examined in compliance with the Agriculture and Markets Law and has been found to be apparently free from all injurious insects and plant diseases. This certificate is valid until September 1, 1932.

BERNE A. PYRKE,
Commissioner.

Dated, Albany, N. Y., Sept. 1, 1931.

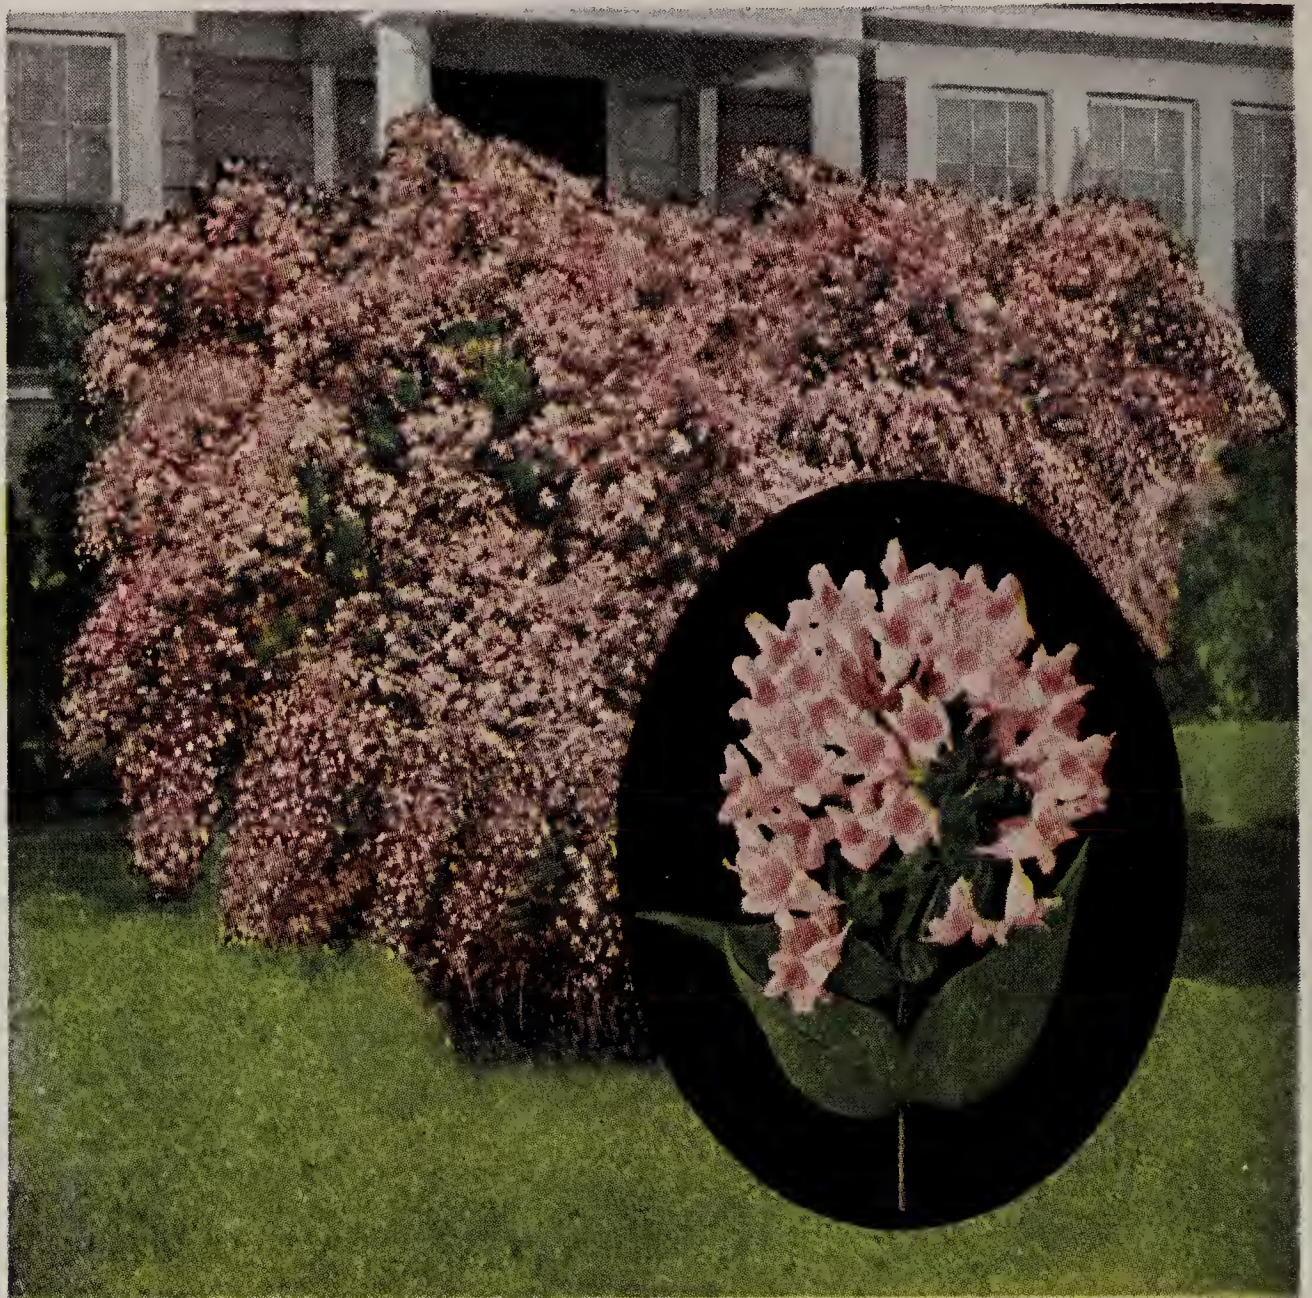

B. D. VAN BUREN,
Director, Bureau of Plant Industry.

HARDY SHRUBS

The Most Useful Landscape Materials

SHRUBS are indispensable in all planting plans, for grouping around entrances, for foundation planting, to enclose garden areas, for a background behind the flower garden and for many other decorative purposes. The descriptions in this book are carefully prepared so that you will know what the shrubs look like, the height to which they will grow and where they will fit best.

New Beautybush (*Kolkwitzia Amabilis*)—One of the very best new shrubs. The long arching branches are

NEW BEAUTYBUSH

covered in June with clusters of small tubular or trumpet-shaped flowers in such profusion that the bush is one cloud of delicate pink. It is perfectly hardy, grows 6 to 9 ft.

\$1.00 each; 2 for \$1.75; 5 for \$3.75

NEW REDLEAVED BARBERRY—Becomes more popular every year. Entirely distinct and striking in appearance. The foliage is rich, lustrous, bronzy red. In other respects it resembles the ordinary Barberry *Thunbergi*. Should be exposed to the sun.

15 to 18 in., 50c each; 2 for 90c; 5 for \$2.00

18 to 24 in., 75c each; 2 for \$1.25; 5 for \$2.75

Barberry *Thunbergi* (Japanese Barberry)—The most generally planted, dwarf growing shrub. Excellent in front of taller growing varieties. Brilliant autumn foliage. The branches are studded with crimson berries the latter part of the season. See Page 12 for Barberry for hedge planting.

	Each	5	10	25
15 to 18 in. . . .	\$.20	\$.85	\$1.50	\$2.75
18 to 24 in.30	1.35	2.50	4.50
2 to 3 ft.35	1.60	3.00	6.00

Flowering Almond (Double Pink)—Early spring flowering shrub covered with beautiful double pink blossoms like small roses before the leaves appear. Grows 5 to 6 ft.

75c each; 2 for \$1.25; 5 for \$2.75

NEW REDLEAVED BARBERRY

For 5 cents per plant extra we prepay postage east of Illinois and north of Virginia

ALTHEA DOUBLE RED

Althea (Rose-of-Sharon), (*Hibiscus Syriacus*)—Tall growing erect shrubs which are easy to cultivate. They bloom in August and September when very few other shrubs are in blossom. They attain a height of 10 to 12 ft. Often used as tall growing hedges. Four colors: double red, double purple, double pink and double white.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

Tree Althea—Same as bush but grown in tree form on a single stem. Colors: double red, double pink, double white, double purple.

3 to 4 ft., 75c each; 2 for \$1.25

Butterflybush (Summer Lilac)—A beautiful shrub which produces lovely lilac colored flowers in great profusion the entire summer. Illustrated in color on Page 8. The entire bush should be cut back to the ground each spring to allow new growth to come up direct from the roots. Grows 5 to 6 ft.

50c each; 2 for 80c; 5 for \$1.75

Hydrangea P. G.—One of the most popular hardy shrubs. Immense creamy white heads of bloom change to pink and bronze with age. Blooms from August to frost. Should be pruned severely each spring before leaf buds open to develop dense shrubs of compact form, 3 to 4 ft. high. True large flowered type.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

Hydrangea P. G., Tree Form—Same as bush but grown in tree form on a single stem.

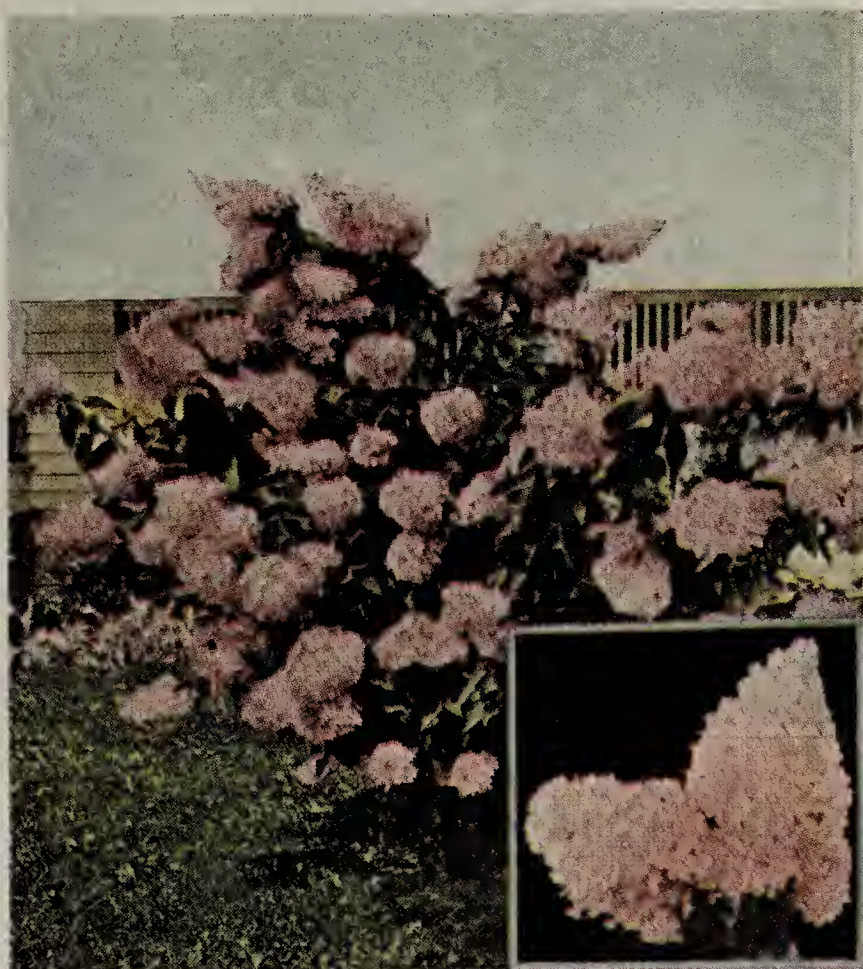

3 to 4 ft., \$1.50 each; 2 for \$2.25; 5 for \$5.00

HYDRANGEA ARBORESCENS

Hydrangea Arborescens (Hills-of-Snow)—Large, snowy white flowers in clusters resembling snowballs from July to September. Should be pruned back to the crown each spring to keep it round and dense at a height of 3 to 5 ft. Grows well in shade.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

HYDRANGEA P. G.

CORNUS ELEGANTISSIMA

Cornus Elegantissima (Variegated Leaf Dogwood)—One of the best of the variegated leaved shrubs. Purplish-red branches and beautiful silver variegated foliage. Small white flowers. Grows 5 to 6 ft. high; can be kept trimmed to compact form.

2 to 3 ft., 60c each; 2 for \$1.00; 5 for \$2.00

DEUTZIA, LEMOINE

Deutzia Lemoine—A very desirable shrub of dwarf compact growth attaining a height of about four feet. Pure white flowers in great profusion in May and June.

18 to 24 in., 50c each; 2 for 80c; 5 for \$1.75

Deutzia Gracilis (Slender Deutzia)—Especially desirable for growing in front of taller shrubs as it is dwarf growing attaining a height of 2 to 3 ft. Pure white flowers in great profusion in May.

12 to 15 in., 50c each; 2 for 80c; 5 for \$1.75

Deutzia, Pride of Rochester—The best tall growing Deutzia. Bears double white flowers tinged with pink in May and June. Grows 6 to 8 ft. Illustrated on Page 8.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

Forsythia Fortunei (Golden Bell)—A splendid tall growing shrub with long drooping branches covered with bright yellow flowers appearing very early before the leaves. Grows 8 to 10 ft. Illustrated on Page 8.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

Forsythia Spectabilis—The most desirable of the Forsythias, more erect and compact in growth and not as tall as Fortunei. Every branch is covered with large, vivid yellow flowers before the foliage appears.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

CORNUS SIBIRICA

Cornus Sibirica (Redtwigged Dogwood)—Valuable for its blood red stems which are especially striking and effective in winter when the leaves are off. Grows 6 to 8 ft. Clusters of white flowers followed by ornamental berries.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

I thought I must write and congratulate you on your wonderful nursery stock. Everything that I ordered is doing fine.

Saugerties, N. Y., June 9, 1931.

Miss G. Y.

GOLDEN ELDER

Golden Elder (*Sambucus Aurea*)—Excellent for a shrubbery border especially with other tall growing shrubs. The golden-yellow foliage contrasts beautifully with other varieties. Flowers are white followed by clusters of berries which can be used for pies, jam and wine. Grows to 10 to 12 ft. but can be pruned to a compact bush of smaller size.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

PURPLE FRINGE

Purple Fringe (*Smoketree*)—A conspicuous spreading bush or small tree growing 10 to 12 ft. high. Bears large clusters of brown leaves overhung in midsummer with mistlike clouds of tiny flowers, light lavender in color. They last for a long time and give an impression of smoke at a distance. Best planted as single specimens.

2 to 3 ft., 75c each; 2 for \$1.25

All my shrubs I have come from your nursery and I have been very well pleased with all.
North Creek, N. Y., June 3, 1931. G. B. A.

BUSH HONEYSUCKLES

(*Lonicera*)

THE upright bush Honeysuckles are among the first shrubs to leaf out in the spring. They are tall growing and have dense handsome foliage. Especially good for tall backgrounds. Will thrive in partial shade. The flowers which are borne in the spring are followed by showy berries which last through the fall.

HONEYSUCKLE, UPRIGHT, WHITE

Honeysuckle, Upright White—A vigorous growing variety of erect habit, bearing handsome, slightly fragrant pure white flowers in June followed by showy berries. Grows 8 to 10 ft.

3 to 4 ft., 50c each; 2 for 80c; 5 for \$1.75

Honeysuckle, Upright Red—Similar to white except with bright red flowers striped with white followed by ornamental berries.

3 to 4 ft., 50c each; 2 for 80c; 5 for \$1.75

Honeysuckle, Upright Pink—Clear rosy pink flowers followed by attractive berries. Grows 10 to 12 ft.

3 to 4 ft., 50c each; 2 for 80c; 5 for \$1.75

Honeysuckle Morrowi (*Japanese Bush Honeysuckle*)—A spreading variety developing into a rounded bush 6 to 7 ft. high. Pure white flowers followed by blood red berries.

3 to 4 ft., 50c each; 2 for 80c; 5 for \$1.75

Honeysuckle Vines are on Page 15.

Hydrangeas—See Page 5.

Japan Quince (*Cydonia Japonica*)—Covered in early spring with dazzling orange-scarlet flowers followed by small quince-shaped fruit. Grows bushy with protecting thorns. Grows 4 to 5 ft.

2 to 3 ft., 60c each; 2 for \$1.00; 5 for \$2.25

No.	Variety	Time of Bloom	Ultimate Height	Described on Page
1	Deutzia, P. of Roch.	May	6-8 ft.	6
2	Weigela Rosea	June	7-8 ft.	11
3	Spirea Vanhouttei	May-June	5-6 ft.	10
4	Hydrangea P. G.	July-Oct.	3-5 ft.	5
5	Forsythia	April	8-10 ft.	6
6	Butterflybush	All Summer	5-6 ft.	5
7	Syringa Cor.	June	8-10 ft.	10
8	Snowberry, White	Fall Berries	8-10 ft.	9

SHRUB COLLECTION A

One Each of the Above, 8 Big Shrubs 2-3 ft.

\$2.75

Separately, 50c each, 2 for 80c, 5 for \$1.75

Kerria Japonica—Handsome green branched shrub growing 4 to 5 ft. Graceful, slender drooping branches with a wealth of golden yellow flowers in June and continuing to some extent all summer. Grows well in shade.
2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

LILACS

NO shrubbery planting is quite complete without a few lilacs. "Lilac Time" is heralded each spring as a great event, especially here in Rochester where we have at Highland Park, one of the finest collections of lilacs in the world.

MME. LEMOINE, DOUBLE WHITE LILAC

FRENCH HYBRID LILACS

Highland Park Varieties

These are the choicest and highest developed types of lilacs. Great improvements have been made in variety, quality of flowers and colors which include a wide range of wonderfully beautiful shades. We have selected and offer here some of the best. Most hybrid lilacs grow 6 to 8 ft.

Hugo Koster—Beautiful rich wine red. Large single flowers in huge clusters.

2 to 3 ft., \$1.00 each; 2 for \$1.50; 5 for \$3.00

Ludwig Spaeth—The darkest of the blues. Deep rich reddish purple, single flowers in long panicles.

2 to 3 ft., \$1.00 each; 2 for \$1.50; 5 for \$3.00

Marie LaGraye—Tall, vigorous plants bearing large clusters of single white flowers.

2 to 3 ft., \$1.00 each; 2 for \$1.50; 5 for \$3.00

Michael Buchner—Delightfully beautiful clusters of delicate pale lilac flowers. Very double. Plants dwarf and stocky.

2 to 3 ft., \$1.00 each; 2 for \$1.50; 5 for \$3.00

Mme. Lemoine—Large, double, pure white.

2 to 3 ft., \$1.00 each; 2 for \$1.50; 5 for \$3.00

President Grevy—Large double flowers of bright blue shaded rosy mauve.

2 to 3 ft., \$1.00 each; 2 for \$1.50; 5 for \$3.00

COMMON VARIETIES

Purple Lilac—The well-known old-time favorite growing to 12 ft.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

White Lilac—Fragrant and free flowering. Not quite as tall as the common purple.

2 to 3 ft., 60c each; 2 for \$1.00; 5 for \$2.25

Snowberry, White (*Symphoricarpos Racemosus*)—A useful shrub with dark green, fine, attractive foliage; bears small pink flowers followed by quantities of large waxy-white berries in autumn and winter. Thrives in dry soil and shady places. Grows 5 to 6 ft. Illustrated on opposite page.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

Snowberry, Red (*Coralberry* or *Indian Currant*)—More compact and dwarf than white Snowberry with attractive red berries clustering thickly along the stems. Grows 4 to 5 ft. Excellent foliage.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

SPIREAS

SPIREAS vary greatly in style, color and habit of growth. All varieties bloom with riotous extravagance, have very good foliage and are essential in all planting schemes.

SPIREA ANTHONY WATERER

Spirea Anthony Waterer—Dwarf growing with broad, flat heads of rosy red flowers all summer. Grows about 3 ft.

18 to 24 in., 50c each; 2 for 80c; 5 for \$1.75

Spiraea Billardi—Rose colored flowers in spikes. Erect branches; blooms July to September. Grows 4 to 5 ft.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

NEW KOREAN SPIREA

A NEW SPIREA

Korcan Spiraea (*Spiraea Trichocarpa*)—Considered the finest Spiraea yet discovered. It is strong growing to a height of 4 to 6 ft. It is covered in June with white flowers in large rounded clusters. Blooms directly following *Spiraea Vanhouttei*.

2 to 3 ft., \$1.00 each; 2 for \$1.50; 5 for \$3.00

Spiraea Prunifolia (*Bridalwreath*)—A superb old time favorite with graceful slender branches covered with clusters of small double buttonlike flowers in May. Grows 5 to 7 ft.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

SPIREA VANHOUTTEI

Spiraea Vanhouttei—By far the most popular spring flowering shrub. In May and June the long graceful drooping branches are covered with a mass of white flowers like a veritable bouquet. Grows 5 to 6 ft. Foliage is ornamental at all times. See illustration in color on Page 8.

2 to 3 ft., 40c each; 2 for 70c; 5 for \$1.50

3 to 4 ft., 50c each; 2 for 80c; 5 for \$1.75

Spiraea Thunbergi—Fine, feathery, narrow leaves of yellowish-green with beautiful autumn coloring. Pure white flowers in feathery masses in early May. Grows 4 to 5 ft.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

SYRINGAS

MOCKORANGE, PHILADELPHUS

NEW PHILADELPHUS VIRGINALIS

Philadelphus Virginalis—The most beautiful and shapely of the Mockoranges. The sweetly scented clusters of pure white, double and semi-double flowers are borne in June and continue to some extent throughout the summer. Grows 6 to 8 ft.

2 to 3 ft., 60c each; 2 for \$1.00; 5 for \$2.25

Syringa, Golden—Grows in compact form 3 to 4 ft. high. Bright golden yellow foliage, white flowers. One of the best golden-leaved shrubs.

18 to 24 in., 60c each; 2 for \$1.00; 5 for \$2.25

Syringa Coronarius (*Sweet Mockorange*)—Well-known old-time favorite with pure white flowers. Grows 9 to 10 ft. Illustrated on Page 8.

50c each; 2 for 80c; 5 for \$1.75

Syringa Grandiflorus (*Large Flowered Mockorange*)—Large, showy white flowers slightly fragrant. Grows 7 to 8 ft.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

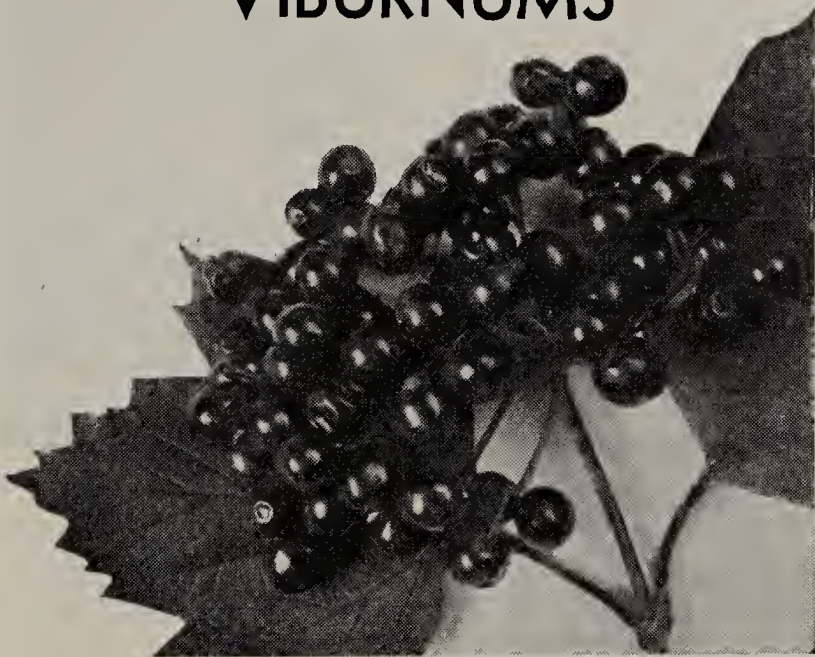

PHILADELPHUS BOUQUET BLANC
NEW DWARF MOCKORANGE

Philadelphus Bouquet Blanc—Low growing, dense shrub which bears white flowers very profusely in May and June. The graceful drooping branches make the shrub particularly handsome at all seasons. Excellent for foreground planting. Grows 4 to 5 ft.

18 to 24 in., 60c each; 2 for \$1.00; 5 for \$2.25

VIBURNUMS

HIGHBUSH CRANBERRY

Highbush Cranberry (*Viburnum Opulus*)—A very desirable tall growing shrub, 8 to 10 ft. Pure white flowers in clusters in May and June followed by large, attractive clusters of crimson berries which remain on the bush throughout the fall and winter. Foliage is very handsome, leathery, brilliant green, turning to rich bronze and crimson in the autumn.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

JAPAN SNOWBALL (*Viburnum Plicatum*)

Japan Snowball (*Viburnum Plicatum*)—Splendid, erect, compact shrub growing 6 to 8 ft. Covered in June with large balls of snowy-white flowers. Illustration above shows how these blooms are regularly borne in pairs on the branches. Very handsome dark green foliage of perfect pattern.

2 to 3 ft., \$1.00 each; 2 for \$1.50; 5 for \$3.00

Common Snowball (*Viburnum Opulus Sterilis*)—A well-known favorite attaining a height of 8 to 10 ft. Snowy-white flowers in large balls in May and June.

2 to 3 ft., 60c each; 2 for \$1.00; 5 for \$2.25

WEIGELAS

(*Diervilla*)

Weigela Rosea—An elegant strong growing, somewhat spreading shrub 7 to 8 ft. in height. Showy, trumpet-shaped, rosy pink flowers in June. Illustrated in color on Page 8.

2 to 3 ft., 50c each; 2 for 80c; 5 for \$1.75

Weigela Variegated—One of the best variegated leaved shrubs. Foliage light green broadly margined with creamy white. Grows 4 to 5 ft. Pale pink, trumpet shaped flowers in June.

18 to 24 in., 50c each; 2 for 80c; 5 for \$1.75

Weigela Eva Rathke—One of the finest and most distinct of the Weigelas. Brilliant carmine red flowers blossoming nearly all summer commencing in June. Dwarf habit growing about 4 ft.

18 to 24 in., 50c each; 2 for 80c; 5 for \$1.75

HEDGE PLANTS

PLANT A HEDGE WHEREVER YOU NEED A FENCE

HEDGE OF BARBERRY THUNBERGI (Japanese Barberry)

Barberry Thunbergi—Dwarf growing; rich, bright green foliage turning to brilliant red in autumn. Attractive red berries remain on bush all winter. Perfectly hardy anywhere. Forms an impenetrable barrier with its thorny twigs. For a dense hedge, plant one foot apart.

	SPECIAL PRICES

100	10.00	15.00	20.00

CALIFORNIA PRIVET HEDGE

California Privet—The most popular hedge plant for this part of the country where winters are not too severe. Grows rapidly, has handsome glossy foliage which remains green well into the winter. Can be kept trimmed to any desired shape or height. Plant 8 to 10 inches apart with first branches even with the ground.

LET US HELP YOU WITH YOUR PLANTING

EVERYONE enjoys beautiful surroundings and likes to have lovely growing things around his home but not everyone is sufficiently well acquainted with the different varieties to select just the ones which will look best in certain particular locations.

This Guide to the Best Plants, Shrubs and Trees That Grow has been prepared to be of the utmost help to you. The descriptions are brief but accurate, and we have tried to put in as many pictures as there is room for, so that you will see just how the plants will look. You will find it a fascinating pastime to select those varieties which appeal most to you and which will look best in the locations which you have.

In planning your planting, place taller growing varieties at the rear and lower growing kinds in front. Give the taller growing ones more room and plant farther apart. The height to which each variety grows is indicated in the descriptions.

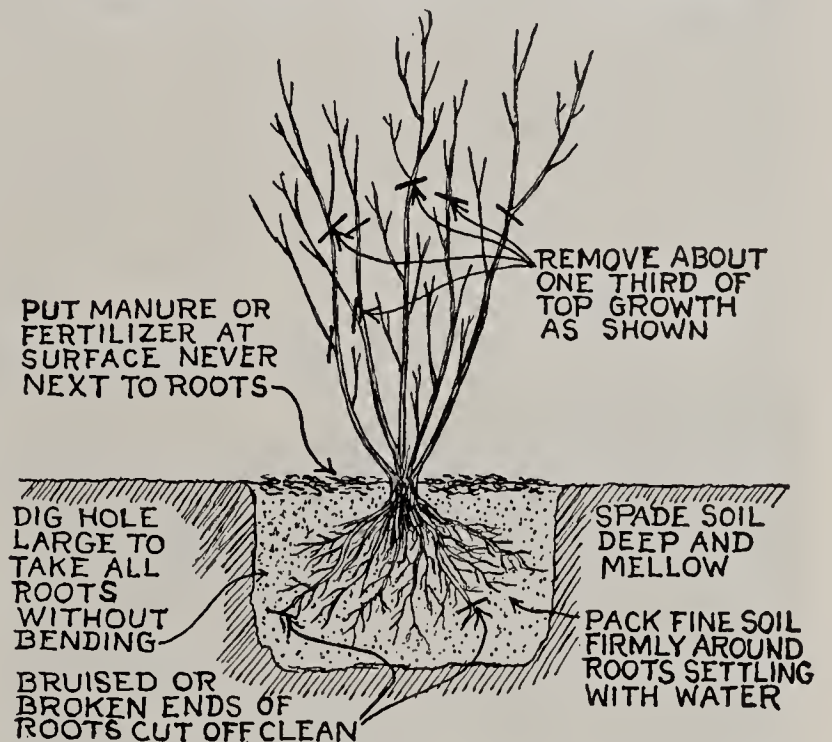

Flowering shrubs, which are found in the first section of this book, are very useful and economical for foundation planting to break the harsh cold line between the house and the ground and make it look as if it belonged in the place where it has been built. Shrubs for a foundation planting should be grouped largely at entrances and at corners, taller growing kinds toward the rear and lower growing kinds in front and under windows where they will not interfere with the view.

Evergreens are also eminently suitable for foundation planting. A suggestive arrangement of varieties is shown on Page 16. Be sure to select kinds that do not grow too tall.

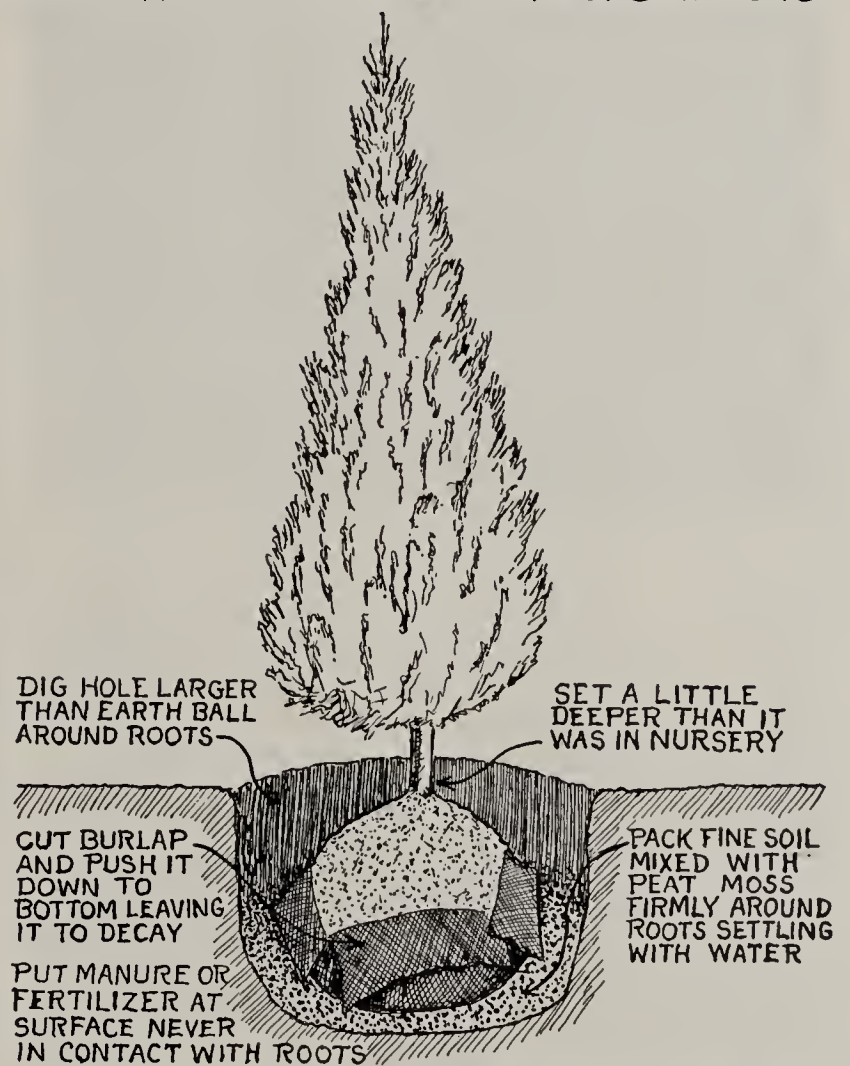

To have the best success with the splendid, strong-rooted plants, shrubs and trees shown in this book, one should understand and conform with the simple laws of nature governing growing things. The diagrams following will help you.

HOW TO PLANT SHRUBS

Pruning suggested in above sketch is only for shrubs at time of planting, not for later pruning of established shrubs.

HOW TO PLANT EVERGREENS

The character of soil is very important. We recommend Peat Moss to improve the physical condition of soil, not only for evergreens but for all kinds of shrubs and trees to make soil more friable, more retentive of moisture. We offer it at \$4.00 per bale (about 20 bushels) or 50c per bushel. More about this material will be found on Page 42. Plant foods are on Page 47. We have an especially prepared booklet about planting and care of nursery stock which we shall be glad to send free upon request.

HARDY VINES

THE hardy ornamental vines shown on this and the following page require practically no care or attention after they become established. They serve as charming beautiful decorations for porches, trellises, fences, arbors, unsightly stumps of trees, etc., and also provide much needed shade. Woodlawn vines are the best and strongest you can buy. Vigorous two-year-old, well rooted stock which has been grown in the open field.

BOSTON IVY, AMPELOPSIS VEITCHII

Boston Ivy (*Ampelopsis Veitchii*)—Especially useful and desirable for covering walls as it will cling to any surface without support especially brick, cement and stucco. The fresh, deep green, closely overlapping foliage turns a rich crimson in the autumn. After it becomes established it grows very rapidly.

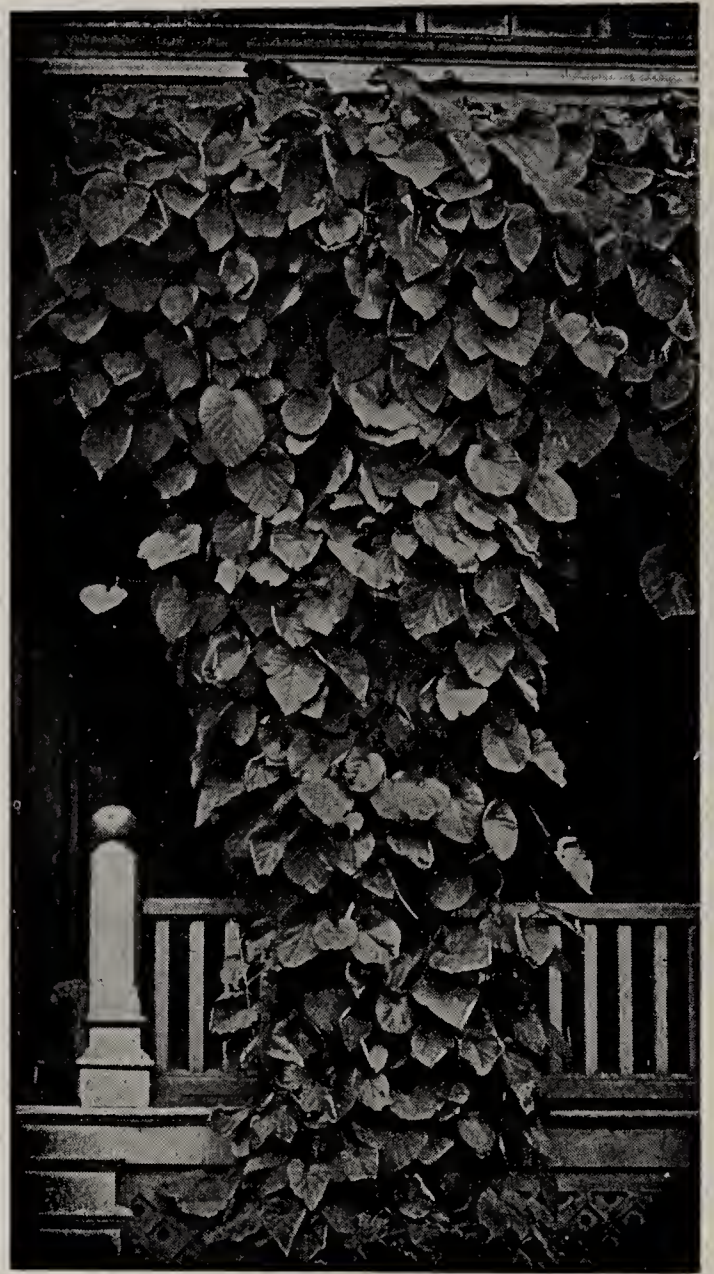

50c each; 2 for 80c; 5 for \$1.75

American Ivy (*Virginia Creeper* or *Woodbine*)—A splendid native vine of vigorous growth. Fine, rich, green foliage in summer changing to crimson and bronze in autumn. Very desirable for covering walls, verandas or trunks of trees.

50c each; 2 for 80c; 5 for \$1.75

Many hearty sincere thanks to you for the splendid flowers and shrubs recently received in such good condition.

Covington, Va., May 14, 1931. Mrs. S. W. A.

DUTCHMAN'S PIPE—BIRTHWORT

Dutchman's Pipe (*Birthwort*)—A unique vine of striking appearance. Ideal where dense shade is wanted. Large handsome, heart-shaped, deep green leaves are closely and evenly laid. It bears peculiar brownish flowers resembling miniature pipes. Perfectly hardy, easily grown.

75c each; 2 for \$1.25; 5 for \$2.50

Clematis Jackmani—Large, intense, violet-purple, star-shaped flowers of velvety richness. Blooms freely in late summer and fall. Best known and most popular of the large flowered Clematis.

85c each; 2 for \$1.60; 5 for \$3.75

Clematis, Mme. Ed. Andre—Medium size star-shaped flowers of distinct crimson red, blooms very profusely.

85c each; 2 for \$1.60; 5 for \$3.75

Clematis Henryi—The finest, large flowered white Clematis. The pure white flowers are about the same size and shape as the red Mme. Ed. Andre but usually with more petals. Blooms freely during summer and autumn.

85c each; 2 for \$1.60; 5 for \$3.75

Clematis Paniculata—The most vigorous growing Clematis with shining green foliage and a profusion of small single pure white star-shaped flowers borne in immense clusters or sheets in late summer and fall so that the entire vine is one mass of bloom. Delightfully fragrant. Grows very rapidly.

50c each; 2 for 80c; 5 for \$1.75

BITTERSWEET BERRIES

Bittersweet (*Celastrus Scandens*)—An excellent hardy native vine with yellow flowers followed in autumn by clusters of brilliant red berries with orange capsules that make charming and lasting winter decorations when dry. Grows rapidly. 50c each; 2 for 80c; 5 for \$1.75

NEW SILVER LACEVINE

New Silver Lacevine (*Polygonum Auberti*)—A very desirable vine, of strong vigorous rapid growth and twining habit attaining a height of 25 ft. or more. Fresh, shining green, small foliage with great foamy masses of silvery white flowers in late summer and fall. 75c each; 2 for \$1.25; 5 for \$2.50

HALL'S JAPAN HONEYSUCKLE

Hall's Japan Honeysuckle (*Lonicera Hal-liana*)—One of the most rapid growing of all vines, very strong and vigorous producing white fragrant flowers intermingled with yellow. Blooms from July until frost. Valuable for covering and binding steep banks. Grows well in shady places.

50c each; 2 for 80c; 5 for \$1.75

Wisteria, Chinese Purple—Unsurpassed for beauty and picturesqueness. Splendid for pergolas, porches and trellises. Attractive foliage and long pendulous clusters of pale lilac colored flowers often 12 inches long in May and June. Is very hardy and lives to a great age.

WISTERIA, PURPLE

Trim back when young each spring to first eye from main stalk.

60c each; 2 for \$1.00; 5 for \$2.25

EVERGREENS

ALL our evergreens are choice specimens, hardy northern grown which have been transplanted several times to develop a ball of fibrous roots. We ship them to you with a ball of earth tied up in burlap so they will reach you in first class growing condition.

Globe Arborvitae—Forms a natural globe or ball without trimming. Largely used for foundation planting in front of taller specimens.
18 to 24 in., \$2.50; 2 to 3 ft., \$4.00

American Arborvitae (Thuja) — Erect pyramidal habit, dark green foliage, very hardy. Likes rather wet soil.
2½ to 3 ft., \$2.50; 4 to 5 ft., \$4.00

Siberian Arborvitae—A very hardy variety naturally forming a rather blunt cone shape.
18 to 24 in., \$2.00

Irish Juniper — Erect, slender, conical shape; dense, fine cut, grayish-green foliage.
3 to 4 ft., \$4.00

Juniper Pfitzeriana—The best of the spreading evergreens. Especially valuable for foundation planting where height is not desired. Perfectly hardy retaining its fresh, silvery green foliage throughout the winter. See illustration below.
18 to 24 in., \$3.00; 2 to 3 ft., \$5.00

Savin Juniper—Another low spreading tree, especially good for foundation planting. Fine dark green foliage.
18 to 24 in., \$3.00; 2 to 3 ft., \$5.00

Excelsa Stricta Juniper—A hardy satisfactory conical evergreen with fine, dense, spiny, silvery green foliage.
18 to 24 in., \$3.00

Silver Red Cedar—Excellent in foundation planting and corners. Erect, tall-growing, pointed, with fine cut silvery-blue foliage.
3 to 4 ft., \$4.00

Norway Spruce—The well-known "Christmas Tree." Grows rapidly to 60 ft. or more. See illustration on opposite page.
18 to 24 in., \$1.00; 2 to 3 ft., \$1.50

Hemlock—A graceful hardy tree of conical shape growing 75 ft. or more; spreading drooping branches, dark green short feathery needles.
3 to 4 ft., \$3.00

Austrian Pine—Grows vigorously and rapidly to 60 ft. or more. Rich, dark green, dense needle foliage of rugged artistic aspect. Interesting in shape and habit.
3 to 4 ft., \$3.00

Mugho Pine (Dwarf Mountain Pine)—Low, dense growth, usually broader than tall. Especially valuable for foundation planting in front of taller specimens. See illustration below.
15 to 18 in., \$3.00; 18 to 24 in., \$4.00

Japanese Yew (Taxus Cuspidata)—Rich, waxy, deep green flattened needles; spreading, bushy habit. Valuable in foundation planting.
18 to 24 in., \$4.00

WOODLAWN FOUNDATION EVERGREEN COLLECTION

Pictured above. Can be adapted to many styles of house fronts.
3 CHOICE SPECIMENS
\$22.50

Key	Quan.	Variety
No. 1	2	Pyramidal Arborvitae, 3 ft.
No. 2	1	American Arborvitae, 3 ft.
No. 3	4	Juniper Pfitzeriana, 18-24 in.
No. 4	1	Mugho Pine, 15-18 in.

AMERICAN
ARBORVITAE, 3 ft.

JUNIPER
IRISH, 3 ft.

GLOBE
ARBORVITAE, 18-24 in.

SIBERIAN
ARBORVITAE, 3 ft.

NORWAY
SPRUCE, 2-3 ft.

SPECIAL EVERGREEN COLLECTION

The Five Select Specimens Pictured Above \$10.00

PYRAMIDAL ARBORVITAE

Pyramidal Arborvitae—Tall, erect, slender and regular in form; especially useful for foundation planting at corners as accent points. Foliage is deep green, dense, and well retained in winter. Perfectly hardy, easily transplanted. Likes rather wet soil.

3 ft., \$3.50; 4 ft., \$5.00; 5 ft., \$6.00

COLORADO BLUE SPRUCE

Colorado Blue Spruce—Wonderful tree of silvery-blue luster growing 60 ft. or more. Of perfect form and symmetry.

18 to 24 in., \$4.00; 2 to 3 ft., \$6.00

Colorado Green Spruce—Similar to above but with green foliage.

18 to 24 in., \$2.00; 2 ft. to 3 ft., \$3.00

HARDY HYBRID RHODODENDRONS

FULLY DEVELOPED RHODODENDRON

The Finest Broadleaved Evergreens

HYBRID Rhododendrons are ideal for all landscape and garden purposes. Never before since their importation from Europe was prohibited have we been able to offer Hybrid Rhododendrons like these. They are vastly superior to wild plants dug from the woods whose roots are necessarily largely lost. These plants are propagated and grown in the nursery under ideal conditions, have developed splendid compact root systems and grow easily and quickly form symmetrical bushy plants covered with glossy handsome foliage with large brilliantly colored flowers.

We enthusiastically recommend the plants offered below and also the smaller size on the opposite page. The large plants shown below will be ready to blossom the first season after setting out. The smaller size on the page opposite the second season.

5 TO 6 YEAR OLD GRAFTED PLANTS

15 to 18 inches, 15 or more branches
Either of the following varieties

Roseum Elegans—Rosy pink.
Catawbiense Album—White.

\$6.00 each; 2 for \$10.00; 5 for \$24.00

OWN ROOT PLANTS

12 to 18 inches, 6 or more branches
Either of the following varieties

Roseum Elegans—Rosy pink.
Catawbiense Album—White.

\$4.00 each; 2 for \$7.50; 5 for \$18.00

THESE TEN HYBRID RHODODENDRONS

TWO of the each named five varieties carefully packed in strong cases with root balls well protected, so they will arrive anywhere in perfect condition. Bushy, vigorous plants, 6 to 12 inches.

1 Box, 10 plants, \$8.50 postpaid anywhere east of Illinois and north of Virginia.

These plants will give exceptionally good results and it will be very interesting to watch them make splendid vigorous growth to a height of 12 to 18 inches after one season, forming flower buds the first year and bursting into bloom the second growing season.

Roseum Elegans—Rosy pink flowers, compact growing.

Pearl of Kenmore—Clear delicate pink.

Hybrid Seedlings—Many brilliant colorings.

Catawbiense—Pink, rose and purple shades.

Ponticum—Rosy lavender.

Any of these varieties separately \$1.00 each, postage extra.

Simple Requirements for Success with Rhododendrons

1—Good drainage.

2—Acid, peaty soil, best obtained by mixing one part Granulated Peat Moss with one part soil a foot or more around and under each plant. We furnish Granulated Peat Moss for \$4.00 per bale (19 to 20 bu.) or 50c per bushel. Sulphate of Aluminum at the rate of 1 to 2 lbs. per square yard each year will also make the soil acid.

THIS PICTURE SHOWS HOW PLANTS ARE PACKED TO REACH YOU IN PERFECT CONDITION

3—Location partially screened from direct rays of sun, summer and winter; also protected from high winter winds.

4—Pack soil firmly around roots when planting.

5—Liberal mulch of several inches of Peat Moss or leaves at all times, summer and winter, to protect shallow root system; and to the extent of the roots, should be hand weeded, not hoed, to avoid injuring roots.

6—Plenty of water during summer.

GRANULATED PEAT MOSS

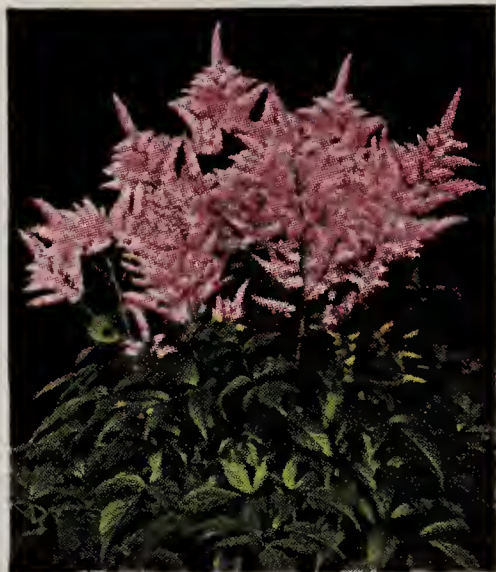

Not only essential for success with Rhododendrons but excellent to work into the soil around all kinds of shrubs, perennials, trees and evergreens adding humus to soil and putting it in the best possible physical condition. As a mulch on top of the ground around plants, it is unexcelled.

\$4.00 per bale (19 to 20 bu.) or 50c per bu.

HARDY PERENNIALS

AQUILEGIA, COLUMBINE

ASTILBE

CAMPANULA, CANTERBURY-BELLS

**GAILLARDIA
BLANKETFLOWER**

PERENNIALS are like old family friends. They never forsake us, but come back each year to brighten our gardens with their friendly loveliness. Plant as early in the spring as possible while roots are dormant. Keep flower stalks cut off to prolong the blooming period.

Anemone (Windflower) — A beautiful plant blooming from August to November growing 2 to 3 ft. White and pink.
35c each; 3 for \$1.00

Aquilegia (Columbine) — Showy, hardy, popular early spring flowering plant growing 2 to 3 ft. We offer the best long-spurred hybrids in many delightful colors.
3 for 70c; 5 for \$1.00

Astilbe (Spirea) — One of the outstanding lovely plants blooming in June. Grows about 3 ft. Long, feathery, graceful spikes of pink flowers.
50c each; 2 for 80c; 5 for \$1.75

Bleedingheart (Dicentra) — A delightful, early spring flowering perennial, bearing numerous rosy-red, heart-shaped flowers in long drooping racemes. Grows to 2 ft. 60c each; 3 for \$1.50

Campanula (Canterbury-Bells) — Lovely, free flowering plant, blooming in July. Grows 2 to 3 ft. Blue and white.
3 for 70c; 5 for \$1.00

Chinese Lantern Plant — Dense bushes growing about 2 feet producing bright orange-scarlet lantern-like fruit in autumn. May be cut and dried for winter decorations. Grown from pieces of root.
3 for 70c; 5 for \$1.00

Coreopsis — Showy, easily grown, rich, golden-yellow flowers on slender, wiry stems. Grows 2 to 3 ft. 3 for 70c; 5 for \$1.00

Gaillardia (Blanketflower) — A most gorgeous hardy plant, blooming from June to November. Deep maroon center thickly bordered with petals of orange and yellow ringed by circles of red. Grows 15 to 18 inches.
3 for 70c; 5 for \$1.00

Hibiscus or Mallow — Large brilliant showy flowers on bushy plants 5 to 6 ft. high. Blooms from July to September. Red and pink. 3 for 70c; 5 for \$1.00

CHINESE LANTERN PLANT

COREOPSIS

MALLOW RED (Hibiscus)

FOXGLOVE

PHLOX, RHEINLANDER

LARKSPUR HYBRIDS

PYRETHRUM
PAINTED DAISY

HARDY PHLOX

ONE of the most beautiful and popular plants for the perennial border blooming in late summer and early fall. Grows 2 to 3 ft. in height. Any of the following varieties: 3 for 70c; 5 for \$1.00

B. Comte—New deep Burgundy-red, almost maroon.

Europa—White with crimson-carmine eye.

Fraulein G. von Lassburg—Pure white. Very early.

G. A. Strohlein—Scarlet-orange, bright crimson eye.

General von Heutz—Brilliant salmon red.

Jules Sandeau—A delightful shade of sparkling pink.

King of the Purple—Best rich purple.

Orchid Bride—New delicate orchid shade of very large size. Individual flowers frequently as large as a silver dollar.

Rheinlander—Beautiful Salmon-pink in large clusters.

Von Hindenburg—New brilliant fiery-red.

Foxglove (*Digitalis*)—Very popular and desirable for a tall background. Stately racemes of bell-shaped flowers often 2 ft. long on stems 5 to 6 ft. Mixed colors only. 3 for 70c; 5 for \$1.00

Larkspur (*Delphinium*)—Stately handsome summer flowering perennials of unsurpassed beauty growing 5 to 6 ft. We offer the new Hybrids which contain many delightful shades of blue.

3 for 70c; 5 for \$1.00

Pyrethrum (*Painted Daisy*)—Beautiful daisy-like flowers of various shades of red, rose, pink and white on long stems about 12 to 18 inches. Blooms in June for a long period. Beautiful fern-like foliage.

3 for 70c; 5 for \$1.00

HARDY CHRYSANTHEMUMS

All Large Flowering Kinds

Argenteuillais—Deep bronzy chestnut.
Autumn Glow—Brilliant crimson and orange.

Golden Queen—Large pure yellow.

Homestead—Bright, rich, rose-pink.

Indian Red—Strawberry-red over copper.

Victory—Large snow-white.

Any variety, 3 for 70c; 5 for \$1.00

BLUE BIRD FLOWER

Blue Bird Flower (Veronica)—Deep indigo-blue flowers borne abundantly in long, thick, compact spikes 2 ft. high from July to September.

3 for 70c; 5 for \$1.00

Lily-of-the-Valley—Always desirable especially for secluded spots. Thrives in any soil, brightening the garden with its beautiful modest, fragrant white bells.

5 for 50c; 10 for 75c; 100 for \$4.00

Liatris (Blazing Star or Gayfeather)—A unique interesting plant blooming in late summer and fall. Long narrow spikes of lavender-pink 4 to 5 ft. high.

3 for 70c; 5 for \$1.00

GERMAN OR FLAG IRIS

Celeste—Fine, pale, azure-blue.

Her Majesty—Exquisitely tinted rosy-pink.

Loreley—Standards yellow, falls deep blue.

Rhein Nixe—Standards white, falls violet.

Any variety above 3 for 70c; 5 for \$1.00

German Iris—Assorted colors, 5 for 85c; 10 for \$1.50.

JAPANESE IRIS

Large, broad, flat flowers of exquisite texture and coloring.

Golden Bound—Large, beautiful white.

Blue Danube—Lovely, deep blue.

Mahogany—Mahogany-red, velvet-toned.

Any variety 35c each; 3 for \$1.00

LILY-OF-THE-VALLEY

For 5 cents per plant extra we prepay postage east of Illinois and north of Virginia

NEW VARIEGATED YUCCA FILAMENTOSA

Yucca Variegated—A very distinctive variety with foliage of green margined with yellow. 75c each; 2 for \$1.25

Yucca Filamentosa — Novel, striking, sword-like foliage remaining green all winter. Creamy-white flowers in spikes rise 6 ft. from center of plant. 3 for 70c; 5 for \$1.00

PAEONIES

Albert Crousse—Shell-pink, bomb type with row of broad petals around outer edge and large ball of finer cut petals in the center. 75c each; 3 for \$2.00

Couronne d’Or—Very double, yellowish-white. Late. 50c each; 3 for \$1.25

Duchess de Nemours—Pure white crown, sulphur-white collar. Early. 50c each; 3 for \$1.25

Edulis Superba—Clear pink mixed with lilac. Early. 50c each; 3 for \$1.25

Felix Crousse—Red. 75c each; 3 for \$2.00

Festiva Maxima — Most popular white, flecked crimson. 50c each; 3 for \$1.25

Madame Duce—Beautiful warm pink of bomb type. 60c each; 3 for \$1.50

MIXED PAEONIES—White, pink or red. 3 for \$1.00; 5 for \$1.50

ROCK GARDENING

NEVER before has rock gardening been as popular as at present. Certainly, in many locations, on slopes and where the contour of the ground is uneven, rock gardening affords a method of decoration which is intensely interesting and which can be developed in an infinite number of delightful ways. Plants which are used most largely in rock gardening are the dwarf trailing varieties which mat and cover the crevices between the rocks and flat surfaces. We have selected the following list of easily grown varieties which are best adapted for rock gardening:

Botanical Name	Common Name	Height	Colors	Time of Bloom	Per 3	Per 10
*Ajuga reptans	Bugleweed	3-4 in.	Blue	May-June	\$.70	\$2.00
Alyssum saxatile	Goldentuft	10-12 in.	Yellow	April-May	.75	2.25
*Aquilegia alpina	Alpine Columbine	12 in.	Blue-White	May-June	.85	2.50
*Arabis alpina	White Rockcress	6-10 in.	White	April-May	.70	2.00
*Aster alpinus	Alpine Aster	6-10 in.	Blue	May-June	.75	2.25
Campanula carpatica	Bellflower	6-8 in.	Blue	June-Aug.	.70	2.00
Campanula persicifolia	Bellflower	2-4 in.	Blue, White	June	.75	2.25
Cheiranthus	Siberian Wallflower	12-18 in.	Orange	May	.70	2.00
Delphinium chinensis	Butterfly Larkspur	12-22 in.	Blue-White	All Summer	.60	1.80
Dianthus plumarius	Clove Pink	12 in.	Pink, White	May-June	.60	1.80
*Heuchera sanguinea	Coralbells	9-18 in.	Pink, Red	June-Sept.	.85	2.50
*Iberis sempervirens	Hardy Candytuft	9-12 in.	White	May-June	.70	2.00
Iris pumila	Dwarf Iris	4-9 in.	Purple	May	.75	2.25
Lychnis viscaria fl. pl.	Double Campion	6-18 in.	Red	June-July	.85	2.50
Myosotis palustris	Forget-me-not	6-12 in.	Blue, Pink, White	April-July	.70	2.00
*Pachysandra terminalis	Japanese Spurge	6-12 in.	Evergreen		.85	2.50
Phlox subulata	Ground Phlox	4-6 in.	Pink, White	April-May	.70	2.00
Physostegia vivid	False Dragonhead	18-24 in.	Pink	July-Aug.	.85	2.50
*Primula vulgaris	English Primrose	6-10 in.	Pale Yellow	April-May	.90	2.75
Sedum acre	Golden Moss	4-6 in.	Yellow	July-Aug.	.70	2.00
Sedum spectabile brilliant	Live-forever	15-18 in.	Rose	Sept.-Oct.	.70	2.00
Sedum stolonifera	Stonecrop	6 in.	Pink, Evergreen	July-Aug.	.70	2.00
Sempervivum	Hen and Chickens	4-10 in.	Succulent Foliage		.60	1.80
*Vinca minor	Trailing Myrtle	8-10 in.	Blue	April-June	.70	2.00
Viola cornuta	Tufted Pansy	5-8 in.	Various	April-June	.70	2.00

Note—Varieties marked * will grow in shade or semi-shade.

Special Rock Garden Collection: 3 each, 8 varieties, our choice 24 plants, \$4.50

ROSES

The Queen of Flowers

ROSES hold first place in the affection of flower lovers everywhere. To grow them successfully, use the strong vigorous, 2-year-old, field-grown plants such as we offer. Woodlawn Roses are grown in our rigorous northern climate, extremely hardy and of ideal age to transplant successfully. We have selected only the most attractive and easily adaptable varieties which are shown on these and the following pages.

Mev. G. A. VanRossem

—A spectacular novelty of red-orange. Especially lovely in half open bud form as shown in the illustration. As the flower develops, it tones to a lighter shade. Prominent deep red veins. Beautiful, glossy, bronzy foliage.

\$1.50 each; 2 for \$2.50;
5 for \$5.50

Rev. F. Page-Roberts

—Long shapely buds of Indian yellow shaded with deep carmine which suffuses the entire flower as it opens. When half open, it is almost perfect in form developing into a cup which never flattens. Healthy foliage.

\$1.25 each; 2 for \$2.00;
5 for \$4.50

WOODLAWN NOVELTY ROSE COLLECTION C

One each of the four extra choice varieties
shown on this page

\$4.25

Joanna Hill—A perfectly formed rose with long, shapely huds of orange-yellow opening to large double flowers with orange center shading to cream color at edge of petals. Bush upright and vigorous. Has few thorns. Excellent for bouquets.

\$1.50 each; 2 for \$2.50; 5 for \$5.50.

Souvenir de Georges Pernet

—An outstanding variety with long pointed huds of rich Oriental red tipped with deep carmine opening to large, perfectly-formed flowers of shimmering rose with buttercup yellow at base of petals. Shining, bronzy-green foliage.

\$1.00 each; 2 for \$1.75; 5 for \$4.00.

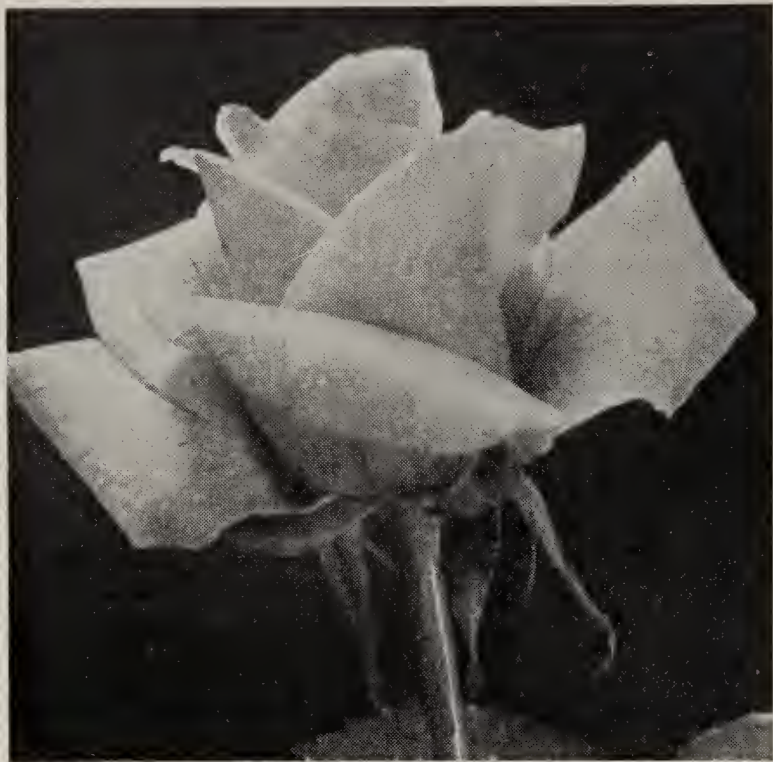

EVERBLOOMING HYBRID TEA ROSES

A SELECT LIST

Strong, two-year-old, field grown plants
Northern grown

Betty—Lovely coppery rose overspread with golden yellow. Deliciously fragrant. Long pointed buds. Illustrated on back cover.

75c each; 2 for \$1.25; 5 for \$3.00

BETTY UPRICHARD

Betty Uprichard—Beautiful carmine flowers suffused with orange inside and coppery carmine on the reverse. Vigorous grower.

\$1.00 each; 2 for \$1.75; 5 for \$4.00

Dame Edith Helen—One of the best of the newer roses. Deep rose pink.

\$1.00 each; 2 for \$1.75; 5 for \$4.00

E. G. HILL—An outstanding new rose of sparkling crimson. Large massive full double blooms with rare old-rose perfume. Illustrated on front cover.

\$1.50 each; 2 for \$2.50; 5 for \$5.50

General Janssen—Glowing deep, rosy carmine. Long pointed buds. Vigorous grower.

75c each; 2 for \$1.25; 5 for \$3.00

Gruss an Teplitz—One of the hardiest, most popular red garden roses. Deep velvety scarlet. Illustrated on back cover.

75c each; 2 for \$1.25; 5 for \$3.00

Joanna Hill—See Page 24.

Miss Lolita Armour—Very large blooms of chrome yellow at base shading to burnt orange, copper and bright salmon.

75c each; 2 for \$1.25; 5 for \$3.00

Mev. G. A. Van Rossem—See Page 24.

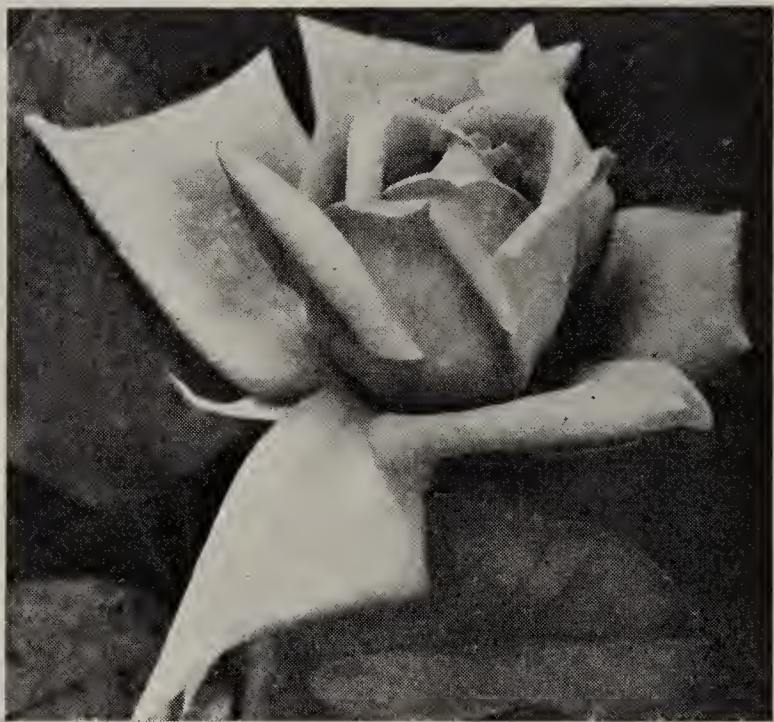

MME. BUTTERFLY

Mme. Butterfly—A harmony of pink, apricot and gold. Resembles the well-known Ophelia but with more intensive coloring.

75c each; 2 for \$1.25; 5 for \$3.00

Mme. Edouard Herriot (Daily Mail Rose)—Long pointed glowing coral red buds open to a lovely orange pink. A continuous bloomer.

75c each; 2 for \$1.25; 5 for \$3.00

MME. JULES BOUCHE

Mme. Jules Bouche—Buds are long pointed and flowers very double white with a strong tinge of pink in center.

75c each; 2 for \$1.25; 5 for \$3.00

KEEP YOUR ROSES HEALTHY

Mildew, black spot and leaf eating insects can be controlled by dusting periodically with Pomo-Dust or Pomo-Green. Both materials are the same except that Pomo-Green is dyed green so that it is not conspicuous on the foliage.

Pomo-Dust 30c; by mail postpaid 40c

Pomo-Green 50c; by mail postpaid 60c

Other insecticides and fungicides on Pages 42 and 43.

*For 5 cents per plant extra we prepay postage
east of Illinois and north of Virginia*

RADIANCE

Radiance—The most popular pink Hybrid Tea. Large blooms of two tone pink, lighter inside with carmine shading outside.

75c each; 2 for \$1.25; 5 for \$3.00

Red Radiance—Same form, habit of growth and vigor of pink Radiance, of brilliant cerise-red color. 75c each; 2 for \$1.25; 5 for \$3.00

SENSATION

Sensation—Probably the best very dark red rose. Flowers full, kouble, strong and vigorous. 75c each; 2 for \$1.25; 5 for \$3.00

Souvenir de Claudius Pernet—One of the finest and most satisfactory yellow roses. Pure striking sunflower-yellow, deeper in center. If cut in the bud, flowers develop beautifully and last long. Illustrated on back cover.

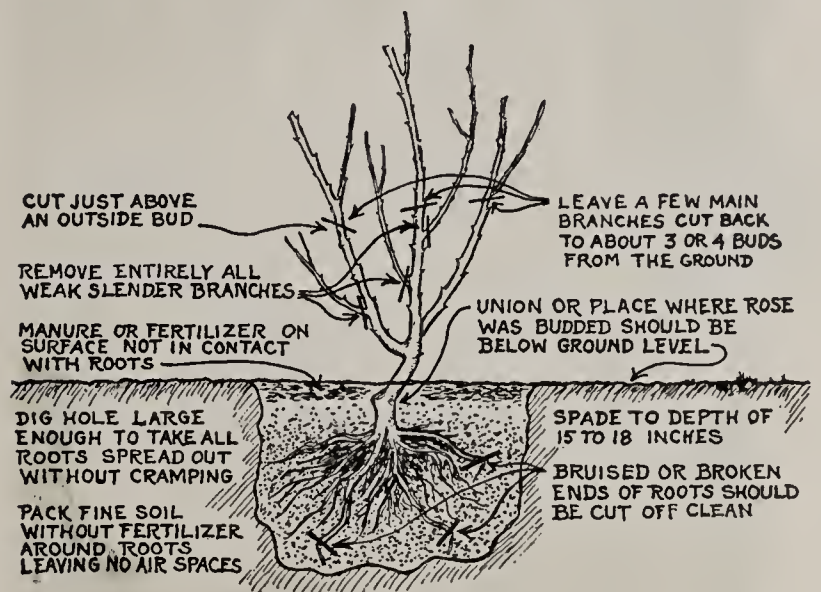

75c each; 2 for \$1.25; 5 for \$3.00

Souvenir de Georges Pernet—See Page 25.

Talisman—The sensational new rose of striking orange, red and yellow. Illustrated on back cover.

\$1.25 each; 2 for \$2.00; 5 for \$4.50

HOW TO PLANT ROSES

Willowmere—Clear pink, glowing with light orange. Large flowers of splendid form. Preferred to Los Angeles because of its vigor and blooming qualities.

75c each; 2 for \$1.25; 5 for \$3.00

HYBRID PERPETUAL ROSES

COMMONLY called June Roses as they blossom most profusely then, although many continue periodically throughout the summer and autumn if the flowering canes are cut back after the June blooms have faded. More vigorous, hardier and more easily grown than the Hybrid Teas.

GENERAL JACQUEMINOT

General Jacqueminot—The old favorite "Jack Rose." Brilliant crimson.

50c each; 2 for 90c; 5 for \$2.00

Mrs. John Laing—Large, long pointed buds open to immense full flowers of beautiful soft pink with satiny sheen.

50c each; 2 for 90c; 5 for \$2.00

SNOW QUEEN (Frau Karl Druschki)

HYBRID PERPETUAL ROSES

Continued

Paul Neyron—The largest rose in cultivation. Very double, deep rose pink with delightful fragrance.

50c each; 2 for 90c; 5 for \$2.00

Prince Camille de Rohan—Deep velvety crimson. Nearest approach to a black rose.

50c each; 2 for 90c; 5 for \$2.00

Snow Queen (Frau Karl Druschki)—The finest pure white rose, perfect in form, strong and vigorous.

50c each; 2 for 90c; 5 for \$2.00

Ulrich Brunner—Large, fragrant, strikingly handsome, brilliant cherry-crimson.

50c each; 2 for 90c; 5 for \$2.00

HARDY CLIMBING ROSES

**Strong Selected Two-year-old
Field Grown Plants**

NEW SPANISH BEAUTY—MME. GREGOIRE STAECHLIN

NEW SPANISH BEAUTY—MME. GREGOIRE STAECHLIN—One of the finest climbing roses ever introduced. Winner of the 1927 Bagatelle Gold Medal, the supreme rose honor. Long pointed buds are crimson at first. Then as the flower opens, the outer petals show flashes of carmine and iridescent pearl-pink inside. At all stages the flower is marvelous defying adequate description. Tall vigorous grower with handsome foliage.

\$1.25 each; 2 for \$2.25

PAUL'S SCARLET CLIMBING ROSE

Paul's Scarlet Climber—The best red climbing rose. The color is vivid scarlet remaining brilliant until the petals fall.

60c each; 2 for \$1.00; 5 for \$2.25

Climbing American Beauty—Fragrant, carmine flowers 3 to 4 inches in diameter are produced in great abundance on separate stems.

50c each; 2 for 90c; 5 for \$2.00

Aviateur Bleriot—One of the best yellow climbing roses. Exquisite golden-yellow buds develop into full, double, primrose blooms with golden center.

60c each; 2 for \$1.00; 5 for \$2.25

Dr. Van Fleet—One of the finest of the newer type climbing roses. Perfectly formed, long pointed buds of deep pink on long stems, several in a cluster that develop into a lighter shade.

50c each; 2 for 90c; 5 for \$2.00

Dorothy Perkins—Clear cherry pink, fragrant flowers in large clusters. They are double and the petals are crinkled giving them a delightfully fluffy appearance. Will often grow 20 ft. in a single season.

50c each; 2 for 90c; 5 for \$2.00

Excelsa (Red Dorothy Perkins)—Double scarlet flowers in great clusters similar in habit and form to Dorothy Perkins.

50c each; 2 for 90c; 5 for \$2.00

Silver Moon—Large, pure white semi-double flowers with attractive yellow stamens.

60c each; 2 for \$1.00; 5 for \$2.25

Thousand Beauties (Tausendschon)—Superb double flowers in large clusters varying from deep cherry-pink to light rose. Nearly thornless.

50c each; 2 for 90c; 5 for \$2.00

SHRUB ROSES

THESE are especially useful for landscape work. Unexcelled for massing, hedge planting, as single specimens or in general shrubbery planting. They have handsome compact foliage as well as beautiful flowers.

F. J. Grootendorst—One of the best of the new Rugosa Hybrids. The small, double red flowers grow in clusters. The edge of each petal is serrated like a carnation. Blooms all summer until frost.

75c each; 2 for \$1.25; 5 for \$3.00

Hugonis—The famous Golden Rose of China. A wonderfully beautiful distinct shrub rose growing five to six feet with graceful arching branches covered with golden yellow blooms in early May. Dainty dense foliage.

75c each; 2 for \$1.25; 5 for \$3.00

BABY ROSES

THE Dwarf Polyanthas or Baby Ramblers are low growing, about 2 feet high, not climbing. Red double flowers are borne in clusters continuously from June until frost.

50c each; 2 for 90c; 5 for \$2.00

GLADIOLUS

"GLAD FLOWERS"

AMERICAN BEAUTY

American Beauty—Same rosy-red color as the famous American Beauty rose. Every spike a bouquet. 3 for 50c; 10 for \$1.50

Anna Eberius—Dark purple with deeper throat. 3 for 40c; 10 for \$1.00

Crimson Glow—Large open flowers of brilliant crimson. 3 for 40c; 10 for \$1.00

Evelyn Kirtland—Rosy-pink, darker at edges with brilliant scarlet blotch on lower petals. 3 for 40c; 10 for \$1.00

Golden Measure—Rich golden yellow without any markings. 3 for 50c; 10 for \$1.25

Liebesfeuer—One of the best and richest colored scarlet Gladiolus ever grown. 3 for 50c; 10 for \$1.50

Mary Pickford—Delicate creamy-white; soft yellow throat. 3 for 40c; 10 for \$1.00

Mrs. Frederick Peters—Beautiful rose lilac; red throat. 3 for 50c; 10 for \$1.50

Mrs. Dr. Norton—Famous pink and cream. A prize winner. 3 for 40c; 10 for \$1.00

MRS. DOCTOR NORTON—EVELYN KIRTLAND

Purple Glory—Deep velvety maroon-red of giant size. 3 for 50c; 10 for \$1.50

Richard Diener—A majestic flower of pure salmon. 3 for 50c; 10 for \$1.50

PRIMULINUS HYBRIDS

DISTINGUISHED for their slender, graceful habit of growth. The most desirable of the gladiolus for bouquets.

Orange Queen—A new lovely, pure, orange-copper. Large flowers; very popular. 3 for 50c; 10 for \$1.50

Salmon Beauty—Salmon-pink with yellow throat. 3 for 40c; 10 for \$1.00

Souvenir—Rich, clear, canary-yellow. 3 for 40c; 10 for \$1.00

GLADIOLUS MIXED—All types and colors. 10 for 50c; 25 for \$1.10; 100 for \$4.00

MONTBRETIA

THE bright and cheerful gold, yellow, orange and red coloring of these summer flowering bulbs, their dainty gracefulness and profusion of bloom make them great favorites. Excellent for the rock garden. Bulbs should be handled like Gladiolus.

Mixed Colors—50c per dozen; \$3.50 per 100.

DAHLIAS

IN the following descriptions (C) after the name denotes Cactus varieties with long, pointed, quilled or twisted petals; (D) Decorative type with broad, somewhat flat petals; (S) Show type with ball-shaped flowers and tubular tightly placed petals; (P) Paeony flowered, large loosely formed with open centers.

Bronze Beauty (C)—Strikingly handsome golden-bronze of immense size.

50c each; 3 for \$1.25

Countess of Lonsdale (C)—Rich salmon pink tinted apricot. Very popular.

35c each; 5 for \$1.50

D. M. Moore (D)—Deep handsome maroon.

35c each; 5 for \$1.50

Dr. Tevis (D)—Soft salmon rose suffused with gold. Magnificent.

50c each; 3 for \$1.25

Geisha (P)—Very showy, brilliant scarlet and gold.

50c each; 3 for \$1.25

JERSEY BEAUTY

Jersey Beauty (D)—A delightful shade of rose pink. Enormous flowers of perfect form.

50c each; 3 for \$1.25

Maude Adams (S)—White deepening to lavender-pink in center.

25c each; 5 for \$1.00

Mina Burgle (D)—Deep glowing crimson with long stems.

30c each; 5 for \$1.25

Rochester Beauty (C)—Beautiful new soft rose of enormous size and perfect form.

75c each; 3 for \$2.00

Rochester Sunrise (D)—New rich deep golden yellow of immense size and fullness.

75c each; 3 for \$2.00

DAHLIAS MIXED—All classes and colors.

5 for \$1.00; 10 for \$1.50; \$10.00 per 100

HARDY LILIES

LILIES are perfectly hardy and very easy to grow. They are a delightful addition to the perennial garden. Plant the following varieties 9 to 12 inches deep as they root from the stem above the bulb as well as below.

AURATUM—GOLDBANDED LILY

Auratum (Goldbanded Lily)—Large, deliciously fragrant flowers of delicate ivory-white with a gold band through the center of each petal. Blooms July and August.

50c each; 3 for \$1.40; 5 for \$2.00

REGALE LILY

Regale—Marvelous trumpet-shaped flowers of creamy white suffused with pink. Golden throat. Blooms in July.

50c each; 3 for \$1.40; 5 for \$2.00

Speciosum Rubrum—Rosy-white, heavily spotted with rich crimson. Reflexed petals.

50c each; 3 for \$1.40; 5 for \$2.00

ORNAMENTAL TREES

MOUNTAIN ASH

Mountain Ash—Handsome erect tree growing 25 to 30 ft. Graceful spreading branches, fernlike foliage, white flowers in early spring followed by clusters of very decorative orange-red berries remaining throughout the winter. 8 to 10 ft., \$2.50 each; 2 for \$4.00; 5 for \$8.00

JAPAN WEEPING CHERRY

Japan Weeping Cherry—Delicate pink flowers completely cover branches in early spring before leaves appear. Graceful willowy branches drooping to the ground. Decorative at all times.

5 to 6 ft. stems \$3.50 each; 2 for \$6.00

PAUL'S DOUBLEFLOWERING THORN

Paul's Double Flowering Thorn—An excellent lawn tree growing 12 to 15 ft. Excellent foliage, double bright carmine flowers in May and June. 4 to 5 ft., \$2.50 each; 2 for \$4.00

BECHTEL'S DOUBLEFLOWERING CRAB

Bechtel's Doubleflowering Crab — The most popular and beautiful flowering Crab. Large double fragrant flowers of delicate pink. Grows 12 to 15 ft.

2 to 3 ft., 75c each; 2 for \$1.25

3 to 4 ft., \$1.00 each; 2 for \$1.75

4 to 5 ft., \$1.25 each; 2 for \$2.00

OTHER FLOWERING CRABS

Shapely lawn trees, growing 12 to 15 ft., blooming profusely in early spring.

Any of the following varieties:

3 to 4 ft., \$1.25 each; 2 for \$2.00

4 to 5 ft., \$1.50 each; 2 for \$2.50

Carmine Crab (*Atrosanguinea*)—Deep purplish-red buds, opening to brilliant carmine.

Japanese Flowering Crab (*Floribunda*)—Handsome bright rose colored flowers borne in great profusion in May followed by red fruit liked by birds.

Redvein Crab (*Niedzwetzkyana*)—Large red flowers, purplish foliage, red branches. Purplish edible fruit.

Scheidecker (*Scheideckeri*)—Small bright rose colored flowers in great profusion.

Chinese Flowering Crab (*Spectabilis*)—Semi-double, coral red flowers, yellow fruit.

CATALPA BUNGEI—UMBRELLA TREE

Catalpa Bungei (Umbrella Tree)—Popular and effective for formal effect on either side of entrances, along driveways, etc. Should be pruned back to the crown early each spring to keep it growing in compact umbrella form. Stems 4 to 6 ft. high.

\$1.50 each; 2 for \$2.50; 5 for \$5.00

CUTLEAF WEEPING BIRCH

Cutleaf Weeping Birch—Beautiful ornamental tree with graceful, slender, drooping branches, fine cut foliage and silvery white bark. Grows 30 to 40 ft.

6 to 8 ft., \$2.50 each; 2 for \$4.00

8 to 10 ft., \$2.75 each; 2 for \$4.50

CATALPA SPECIOSA

Catalpa Speciosa—Handsome, Oriental appearing tree; large heart-shaped downy leaves with fragrant flowers in June. Grows 30 to 40 ft.

8 to 10 ft., \$1.50 each; 2 for \$2.50; 5 for \$5.00

Kanzan Flowering Cherry—One of the famous flowering cherries that attract so much admiration in Washington, D. C. Double pink flowers.

3 to 4 ft., \$2.00 each

THE STATELY AMERICAN ELM

American Elm—A magnificent stately tree with towering branches spreading out at the top like a huge umbrella, 80 to 100 ft. in height.

8 to 10 ft., \$2.00; 2 for \$3.00; 5 for \$6.00
10 to 12 ft., \$2.50; 2 for \$4.00; 5 for \$8.00

SILVERLEAVED MAPLE

Silverleaved Maple—Most rapid growing of all Maples. Leaves silvery underneath with brilliant autumn coloring. Grows 60 to 80 ft.

8 to 10 ft., \$1.50; 2 for \$2.25; 5 for \$5.00
10 to 12 ft., \$2.00; 2 for \$3.25; 5 for \$7.00

NEW CHINESE OR SIBERIAN ELM
After One Season's Growth. This was a 6 to 8 Foot Tree when Set Out.

WIER'S CUTLEAVED MAPLE

FOR RAPID SHADE

NEW CHINESE ELM—Most rapid growing of all Elms. Forms dense spreading tops 40 to 50 ft. high. Small, dense, dark green foliage.

8 to 10 ft., \$2.50; 2 for \$4.50; 5 for \$10.00

Wier's Cutleaf Maple—A handsome tree with slender, graceful, rather drooping branches. Foliage deeply cut or dissected. Grows rapidly to a height of 60 to 70 ft.

8 to 10 ft., \$2.00; 2 for \$3.00; 5 for \$6.00

10% discount on orders with remittance before March 1, 1932; 5% between March 1 and April 1, 1932

AN AVENUE OF NORWAY MAPLES

Norway Maple—A very popular and desirable variety forming a compact, rounded, massive head with broad, rich green foliage. Grows 50 to 70 ft.

8 to 10 ft., \$2.50; 2 for \$4.00; 5 for \$8.00

10 to 12 ft., \$3.00; 2 for \$5.00; 5 for \$10.50

Extra size

2½ in. caliper, \$5.00; 3 in. caliper, \$8.00

American Linden or Basswood—A native tree of stately beauty. Luxurious foliage, curious cream colored flowers in July. Grows 70 to 80 ft.

8 to 10 ft., \$2.75; 2 for \$4.50; 5 for \$10.00

REDLEAVED MAPLE

Redleaved Maple (Schwedleri)—Gleaming red foliage in the spring changing to purplish green and golden bronze. Makes rounded, compact head similar in form to Norway Maple, 40 to 60 ft.

6 to 8 ft., \$3.00; 2 for \$5.50; 5 for \$12.00

8 to 10 ft., \$4.00; 2 for \$7.00; 5 for \$15.00

TEA'S WEEPING MULBERRY

Tea's Weeping Mulberry—Umbrella-shaped head on stems 5 to 6 ft. with graceful willowy branches drooping to the ground. Beautiful glossy foliage.

\$2.50 each; 2 for \$4.00

10% discount on orders with remittance before March 1, 1932; 5% between March 1 and April 1, 1932

PURPLELEAVED PLUM

Purpleleaved Plum (*Prunus Pissardi*)—Leaves when young are deep crimson changing to dark purple. Grows 12 to 15 ft.

4 to 5 ft., \$1.00 each; 2 for \$1.50

LOMBARDY POPLAR

Lombardy Poplar—Admired for its erect, commanding, spire-shaped form and rapid growth. Excellent for a windbreak. Grows 60 to 80 ft.

8 to 10 ft., \$1.25 each; 2 for \$2.00; 5 for \$4.50
10 to 12 ft., \$1.50 each; 2 for \$2.50; 5 for \$5.00

Carolina Poplar—The most rapid growing tree we have attaining a height of 75 to 90 ft. of oval or pyramidal form. Useful as a screen or windbreak. Should not be planted too close to buildings or where there are sewers or pipe lines.

8 to 10 ft., \$1.00; 2 for \$1.50; 5 for \$3.50
10 to 12 ft., \$1.25; 2 for \$2.00; 5 for \$4.50

WILLOW BABYLONICA

Willow Babylonica—Well-known weeping variety forming a large, rounded gracefully drooping head. Particularly appropriate for planting along a water side. Attains height of 50 to 60 ft. Grows rapidly with little attention.

8 to 10 ft., \$1.75; 2 for \$3.00; 5 for \$6.00

**We Receive Hundreds of Letters
Like These**

Stock received next day after shipment. Everything excellent and I take pleasure in recommending you to my friends and neighbors.

Canajoharie, N. Y., Oct. 21, 1931. J. L. W.

Received shrubs today and am very much pleased with them.

South Lyon, Mich., May 21, 1931. Mrs. M. S.

Your things have grown beautifully not only for me but for those who heard of you through me. You sent such generous and good growing plants and bulbs.

Voorheesville, N. Y., June 26, 1931. Mrs. D. W.

WOOD'S QUALITY NUT TREES

HARDY NEW YORK STATE VARIETIES

ENGLISH WALNUT

English Walnut—An exceedingly handsome tree for the lawn. In addition to its value as an ornament, it produces large crops of thin shelled delicious nuts which are always in demand. Our English Walnuts are New York State grown, especially adapted for climates such as we have here and can be grown successfully in Eastern and Northern states. Several large commercial orchards of English Walnuts in the vicinity of Rochester produce good profitable crops each season.

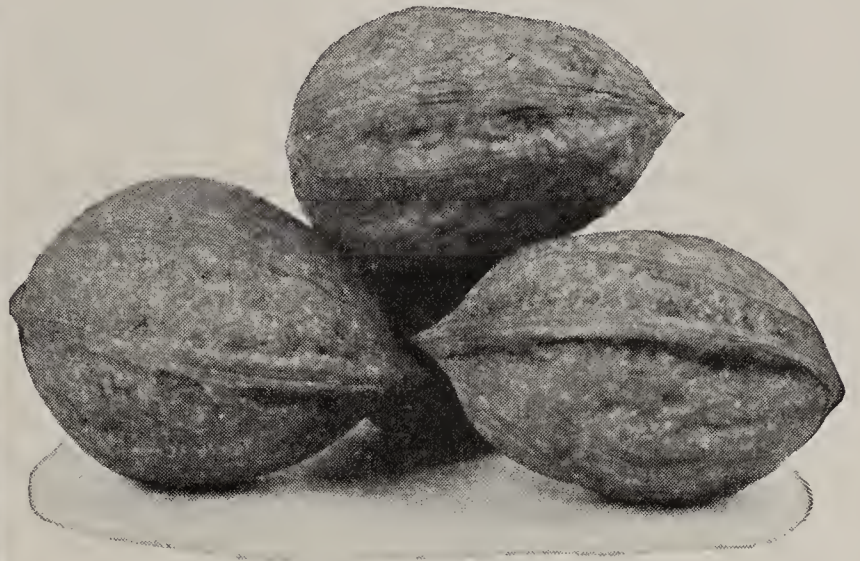

2 to 3 ft., \$1.00 each; 2 for \$1.50; 5 for \$3.50
3 to 4 ft., \$1.25 each; 2 for \$1.80; 5 for \$4.00
4 to 5 ft., \$1.50 each; 2 for \$2.00; 5 for \$4.50

BUTTERNUT

Butternut — Produces large, handsome, elongated nuts with rich, sweet, oily kernels. Shapely tree growing to a height of 100 ft.

4 to 5 ft., \$1.50; 2 for \$2.00; 5 for \$4.50

JAPAN WALNUTS PICKED FROM A SIX-YEAR-OLD TREE

Japan Walnut—A choice improved variety, growing with great vigor forming a handsome head without pruning. Has withstood a temperature of 20 degrees below zero without injury. The shell is somewhat thicker and more elongated than the English Walnut which it resembles in a general way. Kernels are meaty and can be removed entirely.

2 to 3 ft., \$1.00 each; 2 for \$1.50; 5 for \$3.50
3 to 4 ft., \$1.25 each; 2 for \$1.80; 5 for \$4.00
4 to 5 ft., \$1.50 each; 2 for \$2.00; 5 for \$4.50

BLACK WALNUT

Black Walnut—This tree when established grows rapidly to 100 ft. or more, of majestic form and beautiful fern-like foliage. Very valuable for timber. Bears heavy crops of large, round nuts of excellent quality which always bring a good price on the market. One of our best native nut trees.

4 to 5 ft., \$1.50; 2 for \$2.00; 5 for \$4.50

My walnut tree arrived in fine condition and I wish to thank you for it.

Warners, N. Y., June 6, 1931.

Mrs. G. A. F.

WOODLAWN APPLE TREES

Plant standard apples 30 to 40 ft. apart. If 30 ft. apart, you will need 48 trees per acre; 40 ft. apart, 28 trees per acre.

PRICES OF ALL STANDARD APPLES

Size	Grade	Each	Two	Five	Ten
5 to 7 ft.	XXX	\$.75	\$1.25	\$3.00	\$5.00
5 to 6 ft.	XX	.65	1.00	2.00	3.50
Mail Size	X	.50	.80	1.75	3.00

Special Wholesale Prices for 50 or more trees—XXX \$30.00 per 100; XX \$25.00 per 100; X \$15.00 per 100. No discount on these special wholesale prices.

SUMMER APPLES

Yellow Transparent—Earliest of all apples ripening in July. Color pale yellow; good quality. Bears at an early age, frequently when only three years old.

AUTUMN APPLES

Wealthy—Medium size attractively striped and splashed with dark red; flesh white, well flavored, very hardy.

WINTER VARIETIES

Baldwin—One of the leading varieties. Large, red, good quality; keeps well.

NEW CORTLAND APPLE

Cortland—"The most promising of the tree-fruits that have originated at this station," says the New York State Experiment Station. Resembles McIntosh but larger, brighter in color, more juicy and keeps better. An excellent pollenizer for McIntosh and other varieties.

Delicious—Large, bright red; flesh crisp and juicy with delightful aroma.

McIntosh—Extremely popular; attractive red color; uniform size and excellent distinctive flavor.

Northern Spy—An old favorite. Large, attractively striped with red. Juicy, crisp, delicious.

Red Spy—"Whoever grows Northern Spy, either for profit or pleasure should try Red Spy," says the New York State Experiment Station. Has all good qualities of Northern Spy but with solid bright red color.

R. I. Greening—Most popular cooking apple. Well flavored, high quality.

Stayman's Winesap—Very popular; red tinged with yellow. Flesh crisp, juicy and tender.

CRAB APPLES

Hyslop—Large, dark red; flesh yellowish with sprightly sub-acid flavor. Very productive. The most satisfactory Crab Apple.

Size	Grade	Each	Two	Five	Ten
5 to 7 ft.	XXX	\$.75	\$1.25	\$3.00	\$5.00

QUINCE TREES

Orange—Most widely planted variety; large golden yellow, fine flavor. Dwarf growing.

Size	Grade	Each	Two	Five	Ten
3 to 4 ft.	XXX	\$.85	\$1.50	\$3.50	\$6.00

STANDARD PEARS

Plant 18 to 20 ft. apart. If 20 ft. it requires 110 trees per acre.

PRICES OF ALL STANDARD PEARS

Size	Grade	Each	Two	Five	Ten
5 to 7 ft.	XXX	\$.75	\$1.25	\$3.00	\$5.00

Special Wholesale Prices for 50 or more trees—XXX \$30.00 per 100; XX \$25.00 per 100; X \$15.00 per 100. No discount on these special wholesale prices.

Bartlett—Most popular of all pears. Clear yellow skin with faint blush; of highest quality; ripens August and September.

Buerre D'Anjou—Large, handsome, fine flavor. Ripens in October and November.

Clapp's Favorite—Large, pale, lemon yellow, crimson cheeks; juicy, melting and buttery. Ripens in August.

Seckel—Small, yellowish-brown skin with red cheek. One of the richest flavored pears grown. Ripens September and October.

Sheldon—Large, roundish shape, greenish-yellow covered with light russet. Tasty flavor. Ripens October.

PEACH TREES

PEACHES commence to bear earlier than any other fruit tree. Plant about 16 to 18 ft. apart, requiring about 150 trees per acre.

All Varieties Listed Here are Freestone.

PRICES OF PEACH TREES

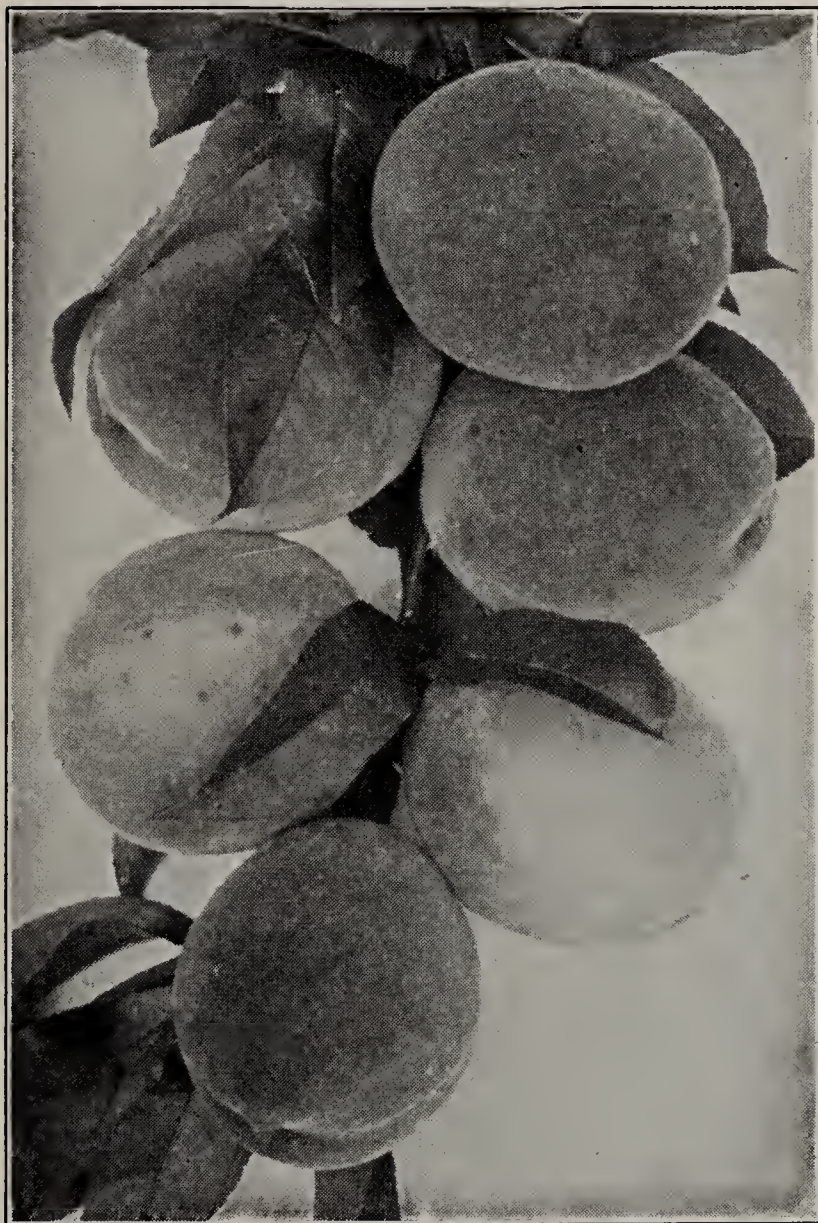

Size	Grade	Each	Two	Five	Ten
4 to 5 ft.	XXX	\$.50	\$.80	\$1.75	\$3.00
3 to 4 ft.	XX	.40	.70	1.50	2.75

Special Wholesale Prices for 50 or more trees—XXX \$25.00 per 100; XX \$20.00 per 100; X \$15.00 per 100. No discount on these special wholesale prices.

Champion—Large white, freestone variety; red cheek, sweet, rich, juicy. Ripens in August.

Crawford Early—One of the best flavored varieties. Large, rich yellow, red cheeks.

Crawford Late—Superb, large yellow peach; first quality. Ripens the last of September.

BRANCH FROM WILMA PEACH TREE

Elberta—The most popular commercial peach. Fruit large. Yellow with red cheeks. Juicy and well flavored. Ripens ten days later than Early Crawford.

Hale—The skin is deep crimson, without fuzz. Flesh golden-yellow, firm, delicious flavor. Good keeper and shipper. Ripens a few days before Elberta.

Rochester—Earliest good yellow peach with red cheeks. Flesh yellow, juicy and delicious. Ripens two weeks earlier than Early Crawford.

New Wilma—This new peach is highly recommended by the New York State Experiment Station and is destined to become, they say, a rival of Elberta. About a week later than Elberta, about the same color, size and of better quality. The trees are vigorous, productive and hardy enough to withstand the coldest winter recorded in half a century in New York State.

PLUM TREES

Plant 16 to 20 ft. apart. If 16 ft. apart, you will need 170 trees per acre.

PRICES OF PLUM TREES

Size	Grade	Each	Two	Five	Ten
5 to 7 ft.	XXX	\$.75	\$1.25	\$3.00	\$5.00

Special Wholesale Prices for 50 or more trees—XXX \$30.00 per 100; XX \$20.00 per 100; X \$15.00 per 100. No discount on these special wholesale prices.

Burbank—An excellent Japan Plum, bearing large fruit of dark red color. Flesh yellow, firm, juicy and of excellent flavor. August.

German Prune—The standard purple prune. Rich, juicy and of fine flavor. Very productive. Ripens in September.

Lombard—Medium size, dark red, juicy. A good early bearer, strong grower and hardy. Ripens in August.

Yellow Egg—Very large, egg-shaped, productive, excellent quality. Ripens in August.

APRICOT TREES

Moorpark—One of the largest, most satisfactory Apricots. Yellow with attractive red cheeks. Firm, juicy and very productive.

	Each	Two	Five	Ten
XXX grade	\$.85	\$1.50	\$3.50	\$6.00

Last year I bought a Yellow Transparent apple tree from you. Mr. Lovejoy, our County Farm Bureau Agent, said it was one of the best trees he had ever seen and it sure does look good. Mr. Lovejoy has a large orchard. He knows "his trees."

Mrs. H. T. W.

North Berwick, Me., June 1, 1931.

Except at special wholesale quantity prices, 10% discount on orders with remittance before March 1, 1932; 5% between March 1 and April 1, 1932

SWEET CHERRIES

SWEET cherries succeed best in well drained sandy or gravelly soil. Avoid low or wet ground. Trees large and spreading. Plant 30 to 40 ft. apart.

PRICES OF SWEET CHERRIES

Size	Grade	Each	Two	Five	Ten
5 to 7 ft.	XXX	\$.85	\$1.50	\$3.50	\$6.00
5 to 6 ft.	XX	.75	1.25	3.00	5.00
Mail Size	X	.65	1.00	2.00	3.50

BLACK TARTARIAN

Black Tartarian—One of the most popular of the dark sweet cherries. Fruit large with small pit. Very dark in color, almost black, of surpassing quality. Bears heavily.

Napoleon (Royal Ann)—Ideal light-colored sweet cherry; attractively colored, pale amber.

Schmidt's Bigarreau—Large size fruit of deep mahogany color. Flesh dark, tender, juicy, wonderful flavor. Late.

SOUR CHERRIES

Plant 18 to 20 ft. apart. At 20 ft., it requires 110 trees per acre.

PRICES OF SOUR CHERRIES

Size	Grade	Each	Two	Five	Ten
5 to 6 ft.	XXX	\$.75	\$1.25	\$3.00	\$5.00
4 to 5 ft.	XX	.65	1.00	2.00	3.50
Mail Size	X	.50	.80	1.75	3.00

Special Wholesale Price for 50 or more trees—XXX \$30.00 per 100; XX \$25.00 per 100; X \$15.00 per 100. No discount from these special wholesale prices.

Early Richmond—A good old variety that yields marvelous crops in the garden and is very valuable commercially.

Montmorency—By far the most popular sour cherry. Ripens ten days later than Early Richmond. Beautiful, large, red attractive looking fruit of excellent quality. Trees grow vigorously and produce very abundantly.

The trees and shrubs arrived May 16 at noon and we planted them immediately. They came through in excellent condition.

Warrensburg, N. Y., May 18, 1931. Mrs. W. D. S.

We received the trees in fine order. Thank you.
Auburn, N. Y., May 15, 1931. Mrs. F. D.

I purchased 1 apple tree and 24 raspberry plants from you last year and they are doing fine. I am very much pleased with them.

Mrs. H. T. W.

North Berwick, Me., April 20, 1931.

I must thank you for doing up the plants so nicely. They came in splendid shape—not a branch broken.

Sherburne, N. Y., Oct. 25, 1931.

H. L.

MONTMORENCY—THE MOST POPULAR SOUR CHERRY

GRAPE-VINES

Two Years Old, Extra Strong, Well Rooted

EVERY garden should have a few grape-vines. They can be trained up the side of a building, on the garden fence, on trellises, occupying but little space and furnishing an abundance of healthful fruit.

NEW ONTARIO GRAPE

New Ontario—Combines the good vigorous habit of vine characteristic of American Grapes and the splendid quality of fruit borne on European varieties; a prolific bearer of excellent flavor, juicy, tender, aromatic and sweet. Ripens the last of August, fully two weeks earlier than Niagara. Especially valuable on this account.

40c each; 2 for 75c; 5 for \$1.50; 10 for \$2.75;
100 for \$25.00

Concord—More widely planted than all other varieties combined. Berries are large, black covered with rich bloom. Very prolific. Vines extremely vigorous and healthy.

25c each; 2 for 40c; 5 for 80c; 10 for \$1.50;
100 for \$10.00

LUCILE

Lucile—Bright red, very hardy and vigorous. One of the best red grapes for this section of the country. Very productive.

25c each; 2 for 45c; 5 for 90c; 10 for \$1.75;
100 for \$15.00

Niagara—The standard white variety for this section. Berries larger than Concord.

25c each; 2 for 45c; 5 for 90c; 10 for \$1.75;
100 for \$15.00

Worden—Black, larger and a few days earlier than Concord. Excellent quality.

25c each; 2 for 45c; 5 for 90c; 10 for \$1.75;
100 for \$15.00

By Mail Postpaid \$1.50

ASPARAGUS

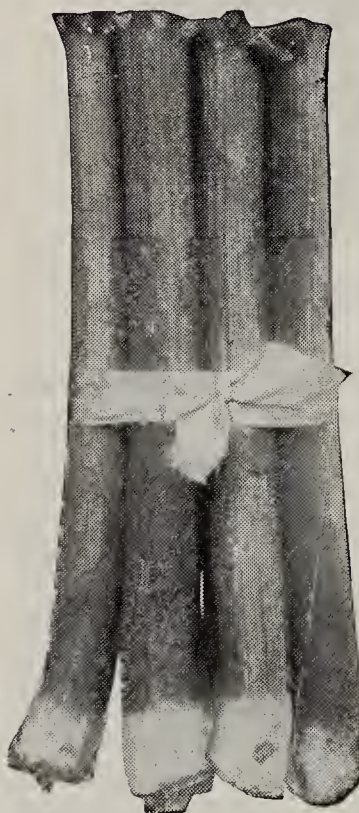

Washington—Asparagus is one of the most delicious and easily grown vegetables. We handle only the Washington which is by far the most improved and satisfactory variety which is displacing practically all other kinds because it is disease resistant, of large size, vigorous and the large shoots remain quite tender for a long period. 2-year-old roots: 25 for \$1.00; 50 for \$1.50; 100 for \$2.50.

By mail add 10c per 25, 15c for 50, 25c for 100.

We are very much pleased with the Asparagus plants. Every one of them have sprouted.
Saratoga Springs, N. Y., July, 1931. J. S.

RHUBARB

Pie Plant

RHUBARB is so easily grown and is useful in so many ways for pies, sauces, jellies, cakes, puddings, etc., that every garden should have at least a few roots. It is easily preserved and kept fresh the entire season. Cut stalks into small pieces and put them into fruit jars. Fill the jars with cold water and seal tightly until ready to use. 3 for 50c; 5 for 75c; 10 for \$1.40; 100 for \$8.00.

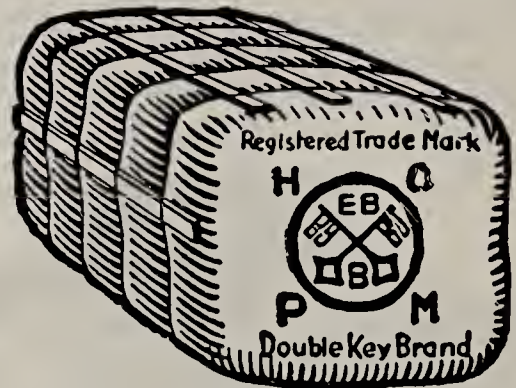

By mail add 10c per 3, 15c for 5, 25c for 10.

SAVE MONEY BY ORDERING EARLY

10% discount on orders received with remittance before March 1, 1932; 5% between March 1 and April 1, 1932. We will reserve for you the finest stock that can be grown and ship it at the proper time for planting in your section.

GRANULATED PEAT MOSS

For Permanent Soil Improvement

THE texture of soil is fully as important as the amount of plant food or fertilizer it contains. All soils need humus or decayed vegetable matter to make them productive. Granulated Peat Moss is humus in its best form. It makes heavy clay soil which packs solidly more friable and easier to break up and light sandy soil more retentive of moisture.

It has a remarkable spongy quality holding more than ten times its own weight of water and incorporates itself with the soil making it ideal for the roots of plants to develop at their best. Use it liberally, working it into the soil, and as a top dressing for flower beds, evergreens, shrubs and all other plant materials. Excellent as a top dressing for the lawn, keeping it from drying out during dry weather. When used as a mulch around plants, it holds the moisture and keeps the weeds down. It contains no fungus or disease, is clean and very agreeable to use.

One bale will cover about 250 square feet one inch in thickness. \$4.00 per bale (about 20 bushels); in smaller quantities 50c per bushel.

GARDEN POLICE

To Protect Your Plants from Insects and Disease

THE following materials are in convenient dust form, easy to apply and very effective. All except Pomo-Dust and Pomo-Green are poisonous and not allowed in the mail. Must be sent by express. Pound packages.

Entodust—Powdered Arsenate of Lead for insects, worms, caterpillars which eat portions of the plant and leaves. 40c

A-1 Dust—Powdered Nicotine for aphids (plant lice), plant flies, etc., which suck the plant juices. Most effective when used on warm, still days. 60c

D-6 Dust—Powdered Bordeaux for mildew, blight, fungus diseases on vegetables, potatoes and other plants. 45c

Pomo-Dust—Powdered Sulphur compound for mildew, black spot, blight, fungus diseases on roses and other plants. Also controls most leaf-eating insects. Keep your plants dusted with this material throughout the growing season, especially before rains.

30c, by mail postpaid 40c

Pomo-Green—The same as Pomodust except that it is dyed a leaf green so that it is not conspicuous on the foliage.

50c, by mail postpaid 60c

D-20 Dust—Combination dust for many forms of fungus and chewing insects. 50c

All-in-One Dust—Effective for nearly all forms of fungus diseases, leaf eating insects and aphids if used frequently throughout the growing season. 60c

CRYSTAL DUSTER GUN

THE best hand duster we have found for applying all forms of dust insecticides and fungicides. Has a long spout with fan-shaped nozzle to blow a cloud of dust up under your plants. \$1.35 each; by mail postpaid \$1.50

TREE PROTECTORS

TO keep mice and rabbits from eating the bark off young trees. Made of a sheet of basswood 18 inches long and 9 inches wide. Soak in water, roll around the trunks of the trees tying with twine. Very simple and practical.

5c each; 50 or more at \$3.00 per 100

BLACKBERRIES

Plant 4 ft. apart in rows 7 ft. apart. 1550 plants required per acre.

3 for 40c; 5 for 60c; 10 for \$1.00; 25 for \$1.50; 100 for \$4.00; 1000 for \$35.00

BLOWER BLACKBERRIES

Blower—Giant of all blackberries. Very hardy and enormously productive.

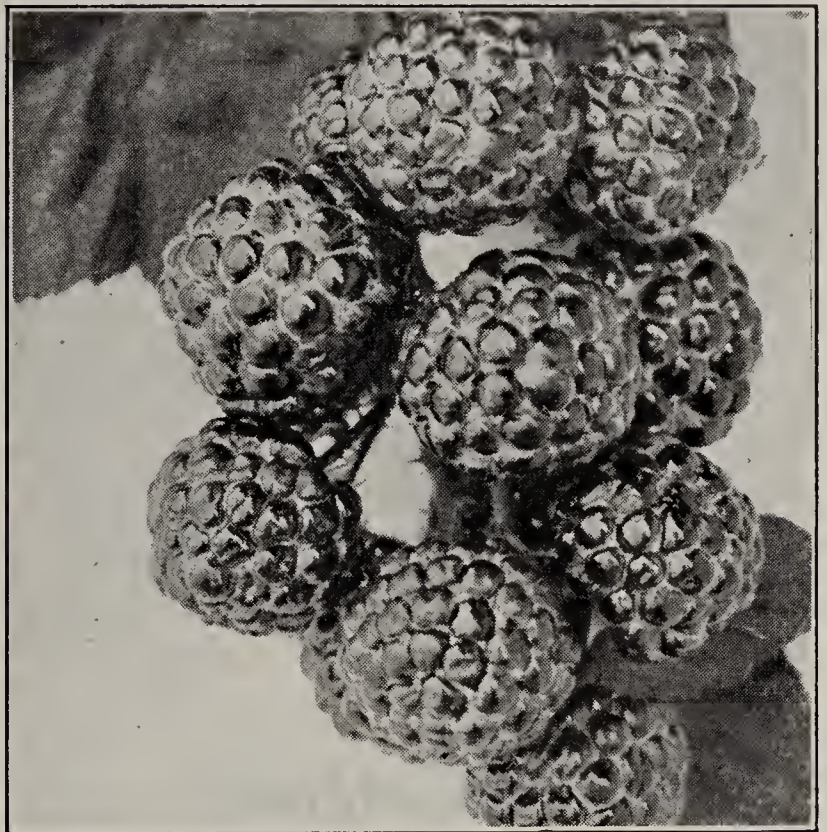

Eldorado—A valuable variety. Medium size, jet black, excellent flavor, very productive.

BLACK RASPBERRIES

RASPBERRIES are a very profitable crop, both for commercial growers and for the home garden. Do not plant too deeply. Set them so that the sprouts are just below the surface of the ground. Plant 3 ft. apart in rows 6 ft. apart. 2420 plants required per acre.

3 for 35c; 5 for 50c; 10 for 90c; 25 for \$1.25; 100 for \$3.50; 1000 for \$30.00

Black Diamond—One of the best. Fruit large and sweet.

PLUM FARMER BLACK RASPBERRIES

Plum Farmer—A great favorite for market and home use. Very productive.

RED RASPBERRIES

Prices of all varieties shown on this page.

3 for 35c; 5 for 50c; 10 for 90c; 25 for \$1.25; 100 for \$3.50; 1000 for \$25.00

Wood's Improved Cuthbert—For years the leading commercial variety. Large red berries of rich flavor.

Columbian—Purple berry of rich sprightly flavor. Very popular and productive.

Be sure to read about the New Latham and Chief Red Raspberries on next page.

Berries by mail add 10 cents per 5 plants; 15 cents per 10 plants; 20 cents per 25 east of Illinois and north of Virginia

NEW LATHAM
RED RASPBERRY

LATHAM

The New Big Red Raspberry

PROF. W. H. ALDERMAN, Chief, Division of Agriculture, University of Minnesota, says of the Latham Raspberry: "The variety is not only resistant to our winter conditions, but is one of the most productive raspberries with which we are familiar."

"Its attractive coloring and firmness give it such favorable appearance on the market that it ordinarily commands a premium of 50c to a case over the price of the ordinary raspberry."

Our Latham Raspberries do not run out. The chief cause of raspberries running out is mosaic disease which weakens ordinary plants until they become unprofitable. Our Latham Raspberries are mosaic free, acceptable anywhere under the most rigid inspection.

Latham is perfectly hardy. As far north as Winnipeg, Canada, it has never winter-killed.

Its productiveness is truly sensational. Figures of actual yields shows that Latham excels all other varieties in quantity of yield. There are records of yields that have produced over \$1,000 per acre each season.

3 for 40c; 5 for 60c; 10 for \$1.00; 25 for \$1.75;
100 for \$4.00; 1000 for \$35.00

CHIEF

The New Early Red Raspberry Offspring of Latham

A WORTHY and fitting companion of its famous parent. Chief was originated by the Minnesota State Fruit Breeding Farm and is a selection from among 4,000 seedlings of Latham. It has all of the good qualities of Latham with the additional advantage of being extra early.

It ripens ten days earlier than any other red raspberry, and for this reason demands a premium of \$1.00 to \$2.00 per crate over the later varieties.

Chief is easy to grow in any good garden soil. It is of rugged constitution, absolutely hardy, disease resistant, yields very heavily, and the fruit is of excellent quality, sure to give the best of satisfaction.

3 for 50c; 5 for 75c; 10 for \$1.25; 25 for \$2.25;
100 for \$6.50

Raspberries by mail add 10 cents per 5 plants; 15 cents per 10 plants; 20 cents per 25, postpaid east of Illinois and north of Virginia

ALLEN L. WOOD

Woodlawn Nurseries

891 Garson Ave.

Rochester, N. Y.

TO HAVE A GOOD VELVETY GREEN LAWN

USE WOODLAWN GRASS SEED

COMPOSED of the best grades of grasses used in correct proportion to produce a thick, rich green turf throughout the growing season. Only the cleanest and plumpest seeds are used, which contain a minimum amount of chaff, inert matter and dirt. Far more economical to use than light cheap seed. Use 1 pound for each 300 square feet.

WOODLAWN GRASS SEED MIXTURE

The Best for Exposed Locations

1 lb. \$.60 postpaid

The following prices do not include transportation charges:

1 lb. . . . \$.50	10 lbs. . . \$ 4.00
5 lbs. . . 2.25	20 lbs. . . 7.50

SHADY LAWN MIXTURE

Especially Prepared for Shady Places

1 lb. \$.70 postpaid

The following prices do not include transportation charges:

1 lb. . . . \$.60	10 lbs. . . \$ 4.50
5 lbs. . . 2.50	20 lbs. . . 8.50

WHITE CLOVER

Best quality seed, 1/2 lb., 40c postpaid; 1 lb., 70c postpaid; 5 lbs. or more, 60c per lb.

FEED IT WITH GOOD PLANT FOOD

Lawns, gardens, shrubbery, flowers and plants of all kind need plant food which should be applied each season. We use and recommend the following:

Woodlawn Sheep Manure—A natural animal product made from cleanings from wool. Will not burn grass or plants and supplies plant food for a long period. Use about 100 pounds per thousand square feet.

5 lbs. . . \$.40	50 lbs. \$ 2.00
10 lbs. . . .75	100 lbs. 3.00
25 lbs. . . 1.25	2000 lbs. 45.00

Vigoro—A scientifically prepared well-balanced, complete plant food containing all elements necessary for vigorous growth in immediately available form. It acts quickly, is highly concentrated, requiring only 40 pounds per thousand square feet.

5 lbs. . . \$.50	50 lbs. \$ 3.00
25 lbs. . . 1.75	100 lbs. 5.00

Bone Meal—An excellent plant food for lawn and garden.

5 lbs. . . \$.45	50 lbs. \$ 2.25
10 lbs. . . .85	100 lbs. 4.00
25 lbs. . . 1.30	2000 lbs. 55.00

Spreads Vigoro and Seed Evenly and Accurately. Every Home Needs One.

Saves time and labor. Ideal for sowing on windy days. Designed for use on established lawns. Can be used on newly prepared soils if well firmed. Costs no more than a good garden spade. Sturdily constructed.

Weight 6 lbs.
Has 14-in. spread
\$1.95 plus postage.
